WASHINGTON, Tuesday, March 29.

THE CASE OF CAPT. FITCH.

A Court of Inquiry to examine into the removal of Government stores from the front and from Culpeper on 7th of February, for which service a hundred cars were ordered by Capt. FITCH, Quartermaster at that post, have reported that no further action was necessary. Gen. MEADE, in reviewing the proceedings, says,

"No severer censure can be passed, upon the court than the publication of its own statement of facts and opinions thereon. A Quartermaster," he says, "in charge of a depot, without orders from any one, proceeds to break up his depot, embarrass the transportation of supplies by irregularly making requisition for three times the number of cars necessary to move stores on hand; when called upon to explain his conduct, attempts to shield himself by alleging the orders of an officer who had no right to give him an order, and did not attempt to do so, and continues the loading of his stores after he has been officially informed they were not to be removed. Still the court fails to see anything in this conduct calling for punishment or reproof. The opinion of the court is not concurred in. The Chief Quartermaster of the army will, as soon as possible, relieve Capt. P. FITCH from the charge of the depot at Culpeper and will assign him to duty in some position where he can be taught to use discretion and coolness in the discharge of his duties.'"

UNSEEMLY CONDUCT OF AN OFFICER.

A highly excited individual named Capt. FRANK BOND, formerly on the staff of Gen. ROSECRANS, thrust himself unceremoniously into the room of the Senate Military Committee on Monday, and demanded to know why the committee had failed to recommend him for promotion, and behaved in a very unmilitary manner, generally. His case was promptly reported to the War Department, when his arrest, preparatory to a court-martial, was ordered at once.

AN OFFICER DISGRACED AND DISMISSED.

The Court-Martial at New-Orleans, in the case of Maj. ALEXANDER S. HILL, Eighteenth Regiment Corps d'Afrique, sentenced him to degradation from his rank, in presence of his troops, and confinement at Dry Tortugas one year. The findings and sentence of the court have been approved by Gen. BANKS, by general order, in which he says,

"The offence of which this officer is proved guilty—an attempt to effect by violence advantages over powerless women—is disgraceful to himself and criminal in the eyes of God and man. The country does not wish in its service men who would so disgrace the uniform they wear."

DISMISSED FROM THE ARMY.

Lieut. CYRUS SCOTT, One Hundred and Twenty-second Ohio; Lieut. ALBERT H. REEDER, Sixty-first Pennsylvania, and Lieut. EUGENE SULLIVAN, Fifth New-York Volunteers, have been dismissed the service of the United States.

ADMINISTERING SWIFT JUSTICE.

The numerous Courts-Martial now in session here to-day received orders from the War Department to hurry up business by sitting without regard to hours. Many good officers on court-martial duty could very advantageously be employed in the field.

THE NEW-YORK CUSTOM-HOUSE AND TRADE WITH THE REBELS.

Investigations into New-York Custom-house affairs, by the Committee of the House, develop the fact that a trade of such magnitude has been conducted between parties in the North and rebels on the Rio Grande, that the rebel agent at Matamoras has pocketed out of it over a million dollars as his share of the profits. Who the guilty parties in the Custom-house are, of course is not known, publicly at least, but the arrest of an employe, on Saturday last, directly by the committee, it is strongly believed, will lead to further arrests.

THE NEW NAVY-YARD.

The question as to the location of the new navy-yard remains still in suspense. Its final disposition is proposed to be arrived at by a conference of the Senate and House Naval Committees on next Thursday. Mr. BRANDAGEE completed his argument to-day before the House Committee in favor of New-London, between which place and League Island it is understood the committee are equally divided.

THE NAVAL ACADEMY QUESTION.

The proposed removal of the Naval Academy from Newport to Annapolis is not likely to be consummated. The Secretary of War having possession of buildings at the latter place for military purposes, declines to give them up for the present, at least.

ADMIRAL WILKES' DEFENCE.

Admiral WILKES opened his defence to-day in the court-martial, by the introduction of evidence to show that owing to the crippled condition of the *Wachusetts*, he had no other vessel at hand for his flagship when he transferred his flag to the *Vanderbilt*. His visit to Laguayra had the double purpose of procuring information in regard to the *Alabama*, and of receiving, by the request of the Secretary of State, $150,000 indemnity by the Government of Venezuela to our citizens.

THE QUICKSILVER CASE.

Recent asseverations concerning the prospective decision of the Supreme Court in regard to the quicksilver mining case, are made by parties who have no access to good authority for them. The long delay in publishing their decision is construed by Government officials as indicative of a final decree against the company. But the Judges have been unusually reticent, and it should be known that all pretensions to a knowledge as to what they will do are but efforts of a few stock-jobbers to affect timorous speculators.

THE TAX BILLS.

The consideration of the Tax Bill absorbed the time of the Ways and Means Committee to-day, exclusively. Slow progress was made, and some days must elapse before a report can be made. In the meantime, the Tariff Bill will be held in abeyance until the Tax Bill is reported to the House.

MR. BALLARD'S NOMINATION.

The nomination of HORATIO BALLARD as Consul to Havana seems to have hung fire in the Commerce Committee of the Senate, a majority of whom oppose immediate action.

THE AIR-LINE RAILROAD.

It is affirmed that responsible parties are about to come on here with a proposition to Congress to build an air-line railway on an entirely new route from any heretofore suggested. They will agree to put down a double track in the most substantial manner, at a saving of fifty miles in distance between this and New-York, over present routes.

The Special Committee on an air-line railway between Washington and New-York are still engaged in receiving the views of outside parties, and have not as yet arrived at any conclusion.

MILITARY APPOINTMENT.

Capt. WM. B. ROE, Sixteenth Michigan Volunteers, Acting Signal Officer, is announced as Chief Signal Officer of the Department of Washington.

DISPATCHES TO THE ASSOCIATED PRESS.

WASHINGTON, Tuesday, March 29.

YOUNG NAVAL OFFICERS DELINQUENT.

The following order has just been issued:

NAVY DEPARTMENT, Tuesday, March 22.

GENERAL ORDER, No. 31.—Ensigns R. S. CHEW and H. J. LAKE, having been reported to the department for going below during their watch, without being regularly relieved, while on duty on board the United States steam frigate *Niagara*, (Commodore T. T. CRAVEN commanding, and Lieut.-Commander HENRY ERBEN, Executive Officer,) their appointments to the grade of Lieutenant, for which they were recently nominated to the Senate and confirmed, have been suspended.

For the same offence the appointments of Acting Ensigns, W. S. DANA, E. T. HARRINGTON, WM. B. HOFF and C. RATHBONE, have been revoked, and they have been ordered to return to their studies at the Naval Academy at Newport, R. I., as midshipmen.

Acting Ensign R. C. IRVIN, who was attached to the *Niagara*, and was guilty of the offence of overstaying his leave, has been ordered to the United States steamer *Glaucus*, (third-rate,) with directions that he shall not, for six months, be permitted to go out of that vessel.

The department cannot permit the plea of ignorance, or that of usage on board the vessels at the Naval Academy, on the part of these officers, who, however young, have been long enough in the service to aspire to and expect promotion. If they had no other source of information, they should have learned from the "Act for the better Government of the Navy," with which all persons in the service are supposed to be familiar, that to "leave his station before regularly relieved" is an offence that subjects the person guilty of it to the punishment of death. It must indeed be obvious to the most ordinary intelligence, that if an officer cannot be trusted on his watch he has yet to learn the simplest practical duties of his profession, and is unfitted for a station where the lives of others, as well as the honor of his country, may depend on his vigilance and fidelity.

The lenient course which the department has adopted in this case has been induced by the consideration that although the severe punishment which a Court-martial would adjudge might be more effectual as a warning, yet the young officers in fault may, with some reason, plead in extenuation of their offences, that they were not duly admonished by those whose duty it was to impress them with a proper sense of discipline, of the serious nature and inevitable consequences of their conduct. It is not probable that so many of them would have erred habitually on board the *Niagara* except from this cause.

GIDEON WELLES,
Secretary of the Navy.

NAVAL ORDER.

Lieut.-Com. SAMUEL MAGRAW has been ordered to the command of the United States steamer *Cambridge*.

THE DEFENCE OF THE LAKES.

The President communicated to-day the report of CHARLES B. STUART, Consulting Engineer, upon the improvements to pass gunboats from tide-water to the Western Lakes. The Engineer assumes that upon the connection of those lakes with tide-water depend the jurisdiction of our Government, common defence, as well as welfare, and that the Mississippi River should likewise be connected with the Lakes; urges that the great food-producing region uses this chain of lakes for the transit of exports and imports, which is a line of communication at present utterly defenceless; leaving the lake cities to destruction by English gunboats on declaration of war by Great Britain, inflicting damage to which the cost proposed by the improvement would be utterly insignificant. He makes various recommendations, and gives, as the total estimate for improved gunboat locks for the Erie, Oswego, Champlain and the Cayuga and Seneca Canals, with seven feet of water, over $18,000,000, and with eight feet of water $20,500,000, and the cost of a canal around Niagara Falls at from $10,000,000 to $13,000,000.

THE LATE MR. LOVEJOY'S PLACE ON COMMITTEES.

Representative GRINNELL, of Iowa, has been appointed a member of the Committee on Territories; and Representative BEAMAN, of Michigan, a member of the Committee for the District of Columbia, in place of Representative LOVEJOY, deceased.

KENTUCKY.

Gov. BRAMLETTE and Ex-Senator DIXON will leave this afternoon on their return to Kentucky. It is understood that they had a free interchange of opinions with the President and Secretary of War, and both parties are in accord and harmonious as to the enforcement of the draft in that State under the Amendatory Enrollment Act.

PROCEEDINGS OF CONGRESS.

SENATE.

WASHINGTON, Tuesday, March 29.

A NAVY-YARD AND DEPOT ON DELAWARE RIVER.

Mr. COWAN, of Pennsylvania, (Union,) introduced a bill to establish a navy-yard and naval depot on the Delaware River. It provides for the selection of the location by a commission of seven scientific men, none of whom shall own land within fifty miles of the Delaware River, the decision of a majority of whom, when approved by the Secretary of the Navy and the President, shall be final.

Referred to the Committee on Naval Affairs.

EXPENSES OF THE INDIAN WAR

Mr. RAMSEY, of Minnesota, (Union,) presented a bill appropriating money, not exceeding nine hundred and twenty thousand dollars, for the payment of further expenses in suppressing the Indian hostilities during 1862.

Referred to the Committee on Military Affairs.

THE DEATH OF MR. LOVEJOY.

The proceedings and resolutions of the House in reference to the death of Hon. OWEN LOVEJOY, late a member of that body, were communicated to the Senate.

Mr. TRUMBULL, of Illinois, (Union,) paid a brief tribute to the character of the deceased in life, which, he said, would be indorsed by the people of Illinois, not only on account of his consistency on the question of Anti-Slavery, but on other vital questions. Mr. LOVEJOY did not live long enough to see the great object of his life accomplished—the entire abolition of Slavery. He lived long enough, however, to see the initiative steps of this great end. Like the great Jewish captive, he lived long enough to catch a glimpse of the promised land. Mr. LOVEJOY was a true Christian, a genial companion, an able statesman, an affectionate husband and father—and what more could be said of him? There was no other consolation for his bereaved family and friends, except that which came alone from the Hand above.

Mr. TRUMBULL, in conclusion, offered the usual resolutions in sympathy and condolence.

Mr. POMEROY, of Kansas, (Union,) would pay a brief tribute to the memory of one he learned to love long ago. He was the valued and tried friend of the people of his State during a period when such friendship was invaluable. During the long and trying years of 1855 and 1856 his hands, and others like his, sustained the people of Kansas in their struggle for freedom.

Mr. SUMNER, of Massachusetts, (Union,) said it was proposed to adjourn now in respect to the memory of the deceased, but could the wishes of the late Representative prevail, the Senate would sit and perfect measures for the abolition of Slavery. Such an act would be more acceptable to him, if living, than any words of compliment, for he was a man of deeds, not words, and in the language of an Oriental writer, "Words are the daughters of earth, deeds the sons of heaven." It would be in vain that we passed tributes to Mr. LOVEJOY, if we do not heed his voice and pass resolutions against Slavery. The deceased was a positive man and a faithful legislator; when other men were timid he was unhesitating. Though he was a hater of Slavery he was a steadfast lover of his whole country. The place filled by the lamented departed will be hard to fill.

The resolutions were then adopted, and the Senate adjourned until to-morrow.

HOUSE OF REPRESENTATIVES.

WASHINGTON, Tuesday, March 29.

COLLECTION OF HOSPITAL DUES FROM VESSELS.

Mr. WASHBURNE, of Illinois, (Union,) reported a bill from the Committee on Commerce providing for the collection of hospital dues of vessels sold or transferred in foreign ports.

The collections are to be made through consuls and commercial agents.

The bill was passed.

THE ANTI-SLAVERY CONSTITUTIONAL AMENDMENT.

Mr. STEVENS, of Pennsylvania, (Union,) said, as several gentlemen desired to deliberately consider the proposed amendment to the Constitution, introduced by him yesterday, to prohibit Slavery in all the States and Territories, he (STEVENS) would move its postponement for two weeks. This was agreed to.

NAVAL AFFAIRS.

Mr. RICE, of Massachusetts, (Union,) from the Committee on Naval Affairs, reported a bill that persons between 26 and 30 years of age may be appointed Assistant Paymasters, provided that the number is not thereby increased; and that examinations of students for admission into the Naval Academy shall take place when they are between 14 and 18 years of age.

The bill was passed.

Mr. RICE also reported a bill regulating and changing in some particulars the method of making promotions in the navy. Heretofore, he said, promotions have been made according to seniority, but this bill provided for promotion according to official capacity and physical fitness, to be determined by a Board of Examination, appointed by the President. Officers not recommended for promotion are to have an opportunity to be heard through a revisory board. One of the sections also provides for the appointment of paymasters and engineers of the fleet.

The bill was passed.

Mr. RICE also reported a bill for the classification of Paymasters' Clerks in the navy, making four classes, at the following salaries: $1,200, $1,000, $800 and $700 per annum.

Mr. RICE also reported a bill fixing the date of the loss of the brig *Bainbridge* at the 21st of August, 1863, in order to fix the pensions of the deceased officers and sailors.

Both the above bills were passed.

Mr. RICE, of Mass., (Union,) reported a joint resolution, authorizing the Secretary of the Navy to sell at public auction lot No. 13, in the Village of Sackett's Harbor, it not being required for the Navy-yard.

The resolution was passed.

Mr. PIKE, of Maine, (Union,) from the Naval Committee, also reported a bill authorizing, during the present war, the appointment of Acting Lieutenant-Commanders and Commanders, at the same rate of pay as are allowed to such grades in the regular navy.

The bill was passed.

Mr. PIKE also reported the Senate bill regulating courts-martial, which was passed, after striking out the first section, which provides that volunteer appointments in the navy shall be subject to the action of the Senate, the same as regular appointments.

The House then went into Committee of the Whole on the bill amendatory of the National Banking Law.

THE NATIONAL BANKING LAW.

The House then went into Committee of the Whole on the bill amendatory of the National Banking Law.

The amendment offered by Mr. HOOPER, of Massachusetts, (Union,) on Friday, was agreed to.

This amendment provides that banks with a capital of not less than $50,000, may, with the approval of the Secretary of the Treasury, be organized in any place, the population of which does not exceed six thousand.

Mr. BOUTWELL, of Massachusetts, (Union,) offered an amendment to strike out the authority proposed to be given to the banks to buy and sell gold and silver coin and bullion, and loan money on real and personal security. These banks with circulation of three hundred millions of dollars will be able to fix the standard of value, which was the very thing the House had been endeavoring to prevent.

Mr. STEVENS, of Pennsylvania, (Union,) opposed the amendment. The section left the banks to buy gold the same as the State banks and individuals. The time had passed for us to consider gold as currency. It was a commodity the same as a bill of exchange.

The amendment of Mr. BOUTWELL was rejected.

Mr. BROOKS, of New-York, (Dem.,) offered an amendment, the object of which was to prevent banking on real estate, which, in New-York, had been found unsafe.

Mr. BROOKS said that it was useless for him to protest against a wrong principle of banking, and he referred to the fact that on a bill of such vast importance they were acting without the presence of a quorum.

The amendment of Mr. BROOKS was rejected.

An amendment was proposed striking out the requirement that every director of a bank, during his whole term of service, shall be a citizen of the United States.

The amendment was disagreed to by a vote of 28 against 68.

The committee considered the bill up to the twenty-third section.

On motion of Mr. GANSON, of New-York, (Dem.,) an amendment to the twenty-second section was adopted, authorizing the issue of bills of the denomination of one, two, and three dollars.

Mr. HOOPER, of Massachusetts, moved that a proviso be added to the section, to the effect that not more than one-sixth of the circulation, furnished to any bank under this act, shall be of a less denomination than five dollars, and that after specie payments shall have been resumed, no circulation of a less denomination than five dollars shall be furnished to any such association, which was agreed to.

The committee rose and the House adjourned.

Copperhead Outrage in Missouri.

ST. LOUIS, Tuesday, March 29.

A special dispatch to the *Democrat*, from Charleston, Coles County, says the Copperheads came into that town to attend court yesterday, with guns concealed in their wagons and armed with pistols. Some soldiers in the Court-house yard were drawn into an affray, and a general fight occurred. The County Sheriff sprang from the Judge's stand and commenced firing a pistol at Union men. Major YORK, Surgeon of the Fifty-fourth, was one of the first victims. The Union men being outnumbered at the Court-house, ran to the houses and stores for arms.

They were fired upon from the windows. Ten or twelve were wounded. Col. MITCHELL, of the Fifty-fourth Regiment, was badly wounded. OLIVER SALES was killed. JAMES GOODRICH, WM. HARTT, T. C. JEFFERYS, and several others belonging to the Fifty-fourth, were wounded severely. The Fifty-fourth Regiment arrived in the afternoon and formed on the square. NELSON WELLS, the man who fired the first shot, was instantly killed. JOHN COOPER, a prisoner, was shot while trying to escape.

Col. BROOKS, with a squad of men, went in pursuit of the gang of copperheads about seven miles.

Capt. WILLIAMS has some twenty prominent Secesh implicated in the affair, under guard at the Court-house. Col. MITCHELL had a conference with Hon. O. B. FRANKLIN and Judge CAMPBELL, who seemed very anxious that steps should be taken to prevent a further outbreak.

Marine Disasters.

TRENTON, Tuesday, March 29.

The Third New-Jersey Cavalry Regiment was reviewed this morning by the Governor and left for Washington, crossing the Delaware at this point. They go as far as Bristol to-day, reach Kensington to-morrow, and pass through Philadelphia on Thursday. The regiment is 1,200 strong, and the finest yet sent from New-Jersey. Col. MORRISON is in command.

DEPARTMENT OF THE SOUTH.

Affairs at Hilton Head and Beaufort—Medals of Honor, &c.

From the Palmetto Herald.

The Hilton Head and Beaufort papers of March 24, have the following items:

MEDALS OF HONOR.

It will be remembered that after the reduction of Fort Wagner and the demolition of Fort Sumter, last Fall, Gen. GILLMORE announced that medals of honor would be presented to such enlisted men as had especially distinguished themselves by gallant conduct during the siege. They have been struck, and samples are already here, though the entire number will scarcely be ready for delivery sooner than two or three weeks. There are about five hundred candidates for the honor, each of whom will have his name neatly engraved on the buckle to which the medal is attached. The medal itself is of bronze, about the size of the silver dollar of blessed memory, and bears upon its obverse in bold relief, a very accurate representation of Fort Sumter at the termination of the first bombardment, taken from an original drawing by Mr. W. T. CRANE, with the legend "Fort Sumter, Aug. 23, 1863," the whole encircled by a border of stars. Upon the reverse in this inscription, in raised letters: "For gallant and meritorious conduct. Presented by Q. A. GILLMORE, Major-General." The name of Gen. GILLMORE is a *fac simile* of his autograph. The medals are beautiful in design, and are very neatly and carefully made. They come from the establishment of BALL, BLACK & CO., New-York City.

From the New South.

SALES OF PLANTATION LANDS.

The auction sales of plantation lands in the parish of St. Helena, by the Direct Tax Commissioners, have about closed, owing to the fact that preparation for the coming crop should be begun immediately, and the surveys having not yet been completed, the plantations on Port Royal Island will be leased for the current year at the rate of about two dollars an acre for arable land, and a just compensation for the use of buildings. The bidding at the sales has been very spirited, notwithstanding threatened enforcement of preëmption rights by persons desiring to buy under suspended instructions, plantation houses and grounds at a dollar and a quarter an acre. Over ten thousand acres have been sold at an average price of about nine dollars an acre, including improvements. 280 acres of the Daniel Pope place on St. Helena Island was bid off by Capt. WM. J. RANDOLPH for $6,050. This is the highest price yet paid. The lowest sales have been at but a trifle over the minimum price, which is $1 25 an acre.

In one or two instances, freedmen have bought the plantations on which they were formerly held as slaves, and several parties have bid, ostensibly for the colored people. The greater number of purchases, however, have been made by persons from the North, who have at once gone into the work of cultivation. Persons intending at the beginning of the sales to buy for speculation, have for the most part considered the prices too high for them.

THE FLORIDA EXPEDITION.

PILATKA OCCUPIED—THE ENEMY AT GAINSVILLE.

Correspondence of the New South:

PILATKA, FLORIDA,
Wednesday, March 16, 1864.

On the 9th instant an expedition left Jacksonville for this place, arriving the following morning. No enemy was found here. Our forces are now intrenched, and hold the town, waiting patiently for the enemy to come and see us.

Reports from deserters and refugees say that Gen. PATTEN ANDERSON, is between here and Gainsville, with 10,000 or 12,000 Confederate troops. These reports must be taken with a large grain of salt; as the credibility of Florida *corn-crackers* is not wholly reliable. And yet the enemy may be in considerable force in our front; and also along the line of the Fernandina and Cedar Keys Railroad.

We learn of a diabolical atrocity that CHAMBERS' Cavalry committed on two negroes here, something like a year or more ago. These negroes had run away from Orange Springs, had crossed the St. John's, and were trying to get to St. Augustine, for Federal protection. They were unquestionably running away from their masters, and were in pursuit of freedom. But they were captured, brought here, and hung on a tree near the town. They had no civil or military trial; had committed no crime, but were executed simply to "put down the nigger" in Florida. One of these poor fellows was cut down before life was extinct—buried alive, as it were, and afterward *his head beaten to pieces with muskets*. Such is life in the peninsula of the Confederacy.

The scenery here is beautiful, orange groves, banana trees, pomegranates and other tropical trees and shrubs abound. The bay south of the town is magnificent, and the noble St. John's is here full three miles wide. Only four families were living here when our troops took possession of the town. They were too poor or lazy to move elsewhere. Pilatka had five hundred inhabitants and four large hotels. It was the head of steamboat trade in the interior of Florida, previous to the war.

On the 14th ult., one of our gunboats captured at Lake George a small steamer called the *Sumter*, with a small quantity of cotton, resin and turpentine. The *Sumter* has been unloaded and sent up to the lake again in pursuit of another Confederate steamer, said to have a large lot of cotton upon her.

Our command, under Col. BARTON, will advance this morning, to feel the enemy, and ascertain the correctness of reports as to his being in force.

Patriotic Contribution from the New-York Board of Brokers.

The following correspondence has been handed us for publication:

No. 23 WILLIAM-STREET, March 25, 1864.

MY DEAR SIR: The collection of the funds subscribed by the members of the Public Board of Brokers, having been completed yesterday, I hasten to transmit a check for $5,900 (say five thousand nine hundred dollars,) being the sum subscribed by the individual members, and also a check for $1,000 (say one thousand dollars,) the amount appropriated by the Board out of its own funds—making the sum of six thousand nine hundred dollars for Gen. HANCOCK'S Corps. I but express to you and Gen. HANCOCK the good wishes of the Board for the success of his mission, and that he will soon be able to appear at the head of his strengthened columns, to do service to his country in this crisis of her fate.

Yours, very respectfully,
S. J. JOSEPH, Treasurer.

We have already enlisted eleven hundred recruits for the Second Corps, and the number is rapidly increasing.

Yours, respectfully,
THEODORE ROOSEVELT,

THE WAR IN THE SOUTHWEST.

Forrest Advancing on Columbus, Ky.—Cutting of Telegraph Lines—The Movement of Troops—Memphis Cotton Market.

CAIRO, Tuesday, March 29.

FORREST, with a force estimated at 7,000, was reported within eight miles of Columbus, Ky., last night. They cut the telegraph lines between that place and Cairo yesterday.

About forty more prisoners, captured at Union City, arrived here last night. They report that only 250 prisoners were captured with Col. HAWKINS, and parties of them were escaping every day.

The steamers *St. Cloud* and *Perry* have arrived from Memphis the 27th. They bring no news of general interest. The *St. Cloud* had 450 bales of cotton, mostly for Evansville.

The Second Wisconsin and Fortieth Illinois veterans have arrived en route home.

The Memphis *Bulletin* of the 27th reports: "Cotton has undergone considerable change since our last report. There has been some action in better qualities, and rates went up rapidly during the day, closing at 4c. above last quotations on all qualities. Receipts about 100 bales by wagon; shipped 700 bales to Cincinnati on the *Glendale*. Middling to strict middling, 57c.@58c.; good middling, 60c.@62c.; middling fair, 61c.@63c."

FROM KENTUCKY.

Division of the State into Two Military Districts—Capture of a Railroad Train by Guerrillas—Reports from Chattanooga.

LOUISVILLE, Tuesday, March 29.

In pursuance of directions from Gen. SCHOFIELD and in accordance with Gen. GRANT'S orders, Kentucky has been divided into two districts. The Western District comprises all between the Nashville Railroad and the Cumberland River, under Gen. EWING, with headquarters on the railroad.

The Eastern District comprises all between the Nashville Railroad and Big Sandy River, under Gen. HOBSON, with headquarters in the field. The whole is to be under the command of Gen. BURBRIDGE, with headquarters at present in this city. That part of Kentucky west of the Cumberland River belongs to the Department of Tennessee.

The express train which left Louisville Monday morning for Lebanon, was captured by ten guerrillas, and the two passenger cars of the train burned.

A guard of seventeen Federal soldiers on the train surrendered without firing a gun. This guard had been ordered to Louisville under arrest.

Federal scouts have proceeded four miles beyond Bull's Gap, and report no signs of LONGSTREET'S forces.

Gen. VAUGHN has been appointed Provost-Marshal of Louisville, vice Maj. FITCH, who rejoins his regiment.

The Chattanooga *Gazette* says the rebels claim to have 50,000 men at Dalton and vicinity, and that they will capture Chattanooga and occupy Tennessee when LONGSTREET moves into Kentucky, which they say he will do forthwith with 26,000 men.

All the heavy artillery is being removed from Kingston to Altoona.

The rebel Gen. JOHNSON, has restricted his officers from Major-Generals, down to one horse.

The Paducah Affair.

CAIRO, Monday, March 28.

Our forces, under Col. HICKS, at Paducah, comprised the First Battalion of the Sixteenth Illinois, numbering 300 raw recruits, under Maj. BARNES, three companies of the One Hundred and Twenty-second Illinois, 120 strong, under Maj. CHAPMAN, and 250 of the First Kentucky Heavy Artillery, (colored,) under Lieut. CUNNINGHAM.

The steamer *Dacotah*, burned at the Marine Railroad, was owned by Capt. JOHNSON, of Paducah, and was valued at $20,000. WOLFE & BROTHER estimate their loss by plundering at $25,000.

The steamer *Bell* has arrived, bringing 200 bales of cotton for St. Louis.

The Army of the Potomac.

REVIEW OF THE FIRST CORPS BY LT.-GEN. GRANT.

HEADQUARTERS ARMY OF THE POTOMAC,
Tuesday, March 29.

Gen. GRANT, accompanied by Gen. MEADE, reviewed the First Corps, (now a portion of the Fifth,) this morning, near Culpepper. While passing along the line they were greeted with the most enthusiastic cheers. Gen. MERRITT'S cavalry division was also reviewed, the whole presenting a fine appearance. The Second Corps was to have been reviewed this afternoon, but a heavy rain-storm setting in, which still continues, the review was postponed.

Naval Movements.

THE COMMAND OF THE IRON-CLAD PURITAN.

The Secretary of the Navy has given the command of the great iron-clad *Puritan*, now in course of completion at Greenpoint, and sister ship to the *Dictator*, to Commodore RADFORD. This is the most exalted command at the disposal of the Navy Department. The *Puritan* has twice the offensive power of the *Dictator*, and will have four enormous guns, instead of two. Commodore RADFORD has been the commander of the Brooklyn Navy-yard for some years. He entered the service on a Missouri appointment on the 1st of April, 1825, and has consequently been in the navy nearly forty years. He was thirteen years at sea, having last been Captain of the steam-sloop *Dacotah*. He was a schoolmate of Admiral DAHLGREN, Commodores ROWAN and ROGERS, Capts. MEADE, DRAYTON and others.

The *Puritan* is rapidly preparing for her trip to Europe. The inner shell of the turret is now being dragged along the wharf, from the house where it was built to its place on board the vessel. It is slid along on greased ways by means of an immense pulley-block, the rope being wound on a windlass by horse-power. The turret rests stationary on its ways till the rope is stretched to a certain tension, when it slips forward a foot or more at a step. This interior shell is formed of four plates, each one inch thick. When it is in place on the vessel, it is to be surrounded from top to bottom by hoops, each five inches thick and eleven inches wide; these hoops being formed in quarter sections, so that four pieces reach round the turret. These hoops are not pierced by bolt-holes, but are held in place by the outer shell of the turret, which is six inches thick, built up of plates each seven-eighths of an inch in thickness. This outer shell is to be put together just above the turret, and then lowered into its place with the aid of hydraulic presses.

RANK FOR WARRANT OFFICERS.

The warrant officers of the navy, through a committee appointed for the purpose, have memorialized Congress for the establishment of a certain rank or grade for the officers they represent. They ask that for the first five years' service, they be made to rank with Ensigns; that after five years they be made to rank with Masters; that after having faithfully served for ten years, they receive a commission, not to conflict with the officers of the line; that the title "Forward," where it is used to designate the Forward Warrant Officers of the United States, be stricken from the Naval Register, so that it may read, and they be known as "Warrant Officers in the Naval service of the United States." The grounds on which these officers—boatswains, gunners, carpenters, and sailmakers—ask for this assignment of rank, are briefly, that they actually exercise, in their several departments, a military authority over the crew. Frequently they are called upon to perform other and responsible duties, pertaining exclusively to the line, such as the subordinate command of divisions, the command of boats and parties of men on duty ashore; and in case of sickness or disability of the Lieutenants of the vessel, those of a watch are charged upon them; and in cases of extreme emergency, the actual command of the vessel may devolve upon them.

THE MARINE CORPS.

The following appointments have been made in the United States Corps of Marines:

Capt. W. L. Shuttleworth to be a Major, vice Major J. Watson, deceased; First Lieut. G. P. Houston, to be Captain from the 6th of February, 1864, vice W. L. Shuttleworth, promoted; Second Lieut. R. O. N. Fora, to be First Lieutenant from the 6th of February, 1864, vice G. P. Houston, promoted; Edward C. Gabaudan, of New-York, twenty-one years old, to be a Second Lieutenant in the Marine Corps; W. L. Muse, of Maryland, in his twenty-first year, to be Second Lieutenant; Isaac H. Washburne, of Maine, in his twenty-first year, to be a Second Lieutenant; A. B. Young, of Massachusetts, twenty-three years old, to be a Second Lieutenant; F. O. Webster, of New Hampshire, twenty-two years old, to be a Second Lieutenant; J. W. Haverstick, of Pennsylvania, twenty-one years old, to be a Second Lieutenant; J. B. Bresse, of Illinois, twenty-one years old, to be a Second Lieutenant.

ONE DAY LATER FROM EUROPE.

ARRIVAL OF THE CITY OF MANCHESTER.

The Alexandra Case in the House of Lords.

Progress of the Dano-German War.

INDICATIONS OF THE POLICY OF SWEDEN.

COMMERCIAL AND FINANCIAL.

The *City of Manchester*, for Liverpool, March 16, and Queenstown March 17, arrived yesterday morning, bringing one day's later telegraphic intelligence than that received by the *America*.

GREAT BRITAIN.

THE ALEXANDRA CASE.

The *Alexandra* case was resumed in the House of Lords on the 14th March. Sir HUGH CAIRNS commenced his argument on the part of the defendants, and contended that the Court of Error was right in refusing to hear the appeal from the Court of Exchequer. On the 15th the Attorney-General replied on behalf of the Crown, and the case was concluded. Judgment was deferred, and it was expected that on the 17th the Lord Chancellor would announce when the House of Lords would deliver judgment.

The London *Times* says:

"It is hardly probable that an unanimous decision will be obtained from the House of Lords, but there is a possibility that the House may decline jurisdiction, and this disgraceful result would be owing to the slovenly manner in which our acts of Parliament are drawn and modified in Committee."

THE KEARSAGE ENLISTMENTS.

At the Cork Assizes, on the 14th, six men were brought up under an indictment charging them with an infringement of the Foreign Enlistment Act, in having agreed to enter the service of the United States as sailors, on board the *Kearsage*, at Queenstown. The prisoners all pleaded guilty, and on entering into their own securities to appear for judgment when called on, were released from custody.

THE SHEFFIELD DISASTER.

Accounts from Sheffield state that 178 bodies have been recovered, but 258 persons are returned as dead or missing, and consequently there are 80 bodies which have been washed down the stream and will not be recovered until after the lapse of many days.

ANOTHER CATASTROPHE.

On the afternoon of March 16, the pump at Spittlewell Monstone Pits, near Chesterfield, broke, and before the men could be extricated, at least 14 were drowned. The water has risen for a considerable height up the shaft. The loss of life is believed to be greater than here stated. There were about 71 men and boys employed in the pit.

THE OPPOSITION.

The *Morning Advertiser* announces as an undoubted fact that the Conservatives have fully made up their minds to have a trial of strength with Ministers very soon after Easter, and should they be beaten once, or even twice, they will not relinquish their efforts to overthrow the Government.

FRANCE.

It is asserted that the mission of the Duke of Saxe Coburg to France was to seek the aid and protection of the Emperor for the rights of the small German sovereigns. The Duke quitted Paris on the 14th March for Germany.

The Paris *Nation* had received a second warning on account of an objectionable article.

On the evening of the 14th the police entered the private residence of M. GARNIER PAGES, one of the independent candidates for Paris, and his friends with whom he was discussing the prospects of his election were turned out of doors.

The Paris Bourse on the 15th was firm. Rentes closed at 66.75.

DENMARK.

COPENHAGEN, Wednesday, March 16.

All the superior officials and Mayors in that portion of Jutland occupied by the Allies, have been conveyed to headquarters to receive requisitions for supplies intended to be enforced upon the inhabitants. The enemy yesterday kept up a heavy fire. One battery was directed against our left and the ships before Sonderborg. The result was unimportant.

BERLIN, Wednesday, March 16.

It is stated that the three Prussian men-of-war which have been at anchor in the harbor at Brest since the commencement of hostilities, have been placed under the command of the Austrian Admiral in order to operate in concert with the Austrian squadron. The Prussians completed the erection and armament of their batteries at Gaunneback on the Wemmigbund, on Saturday night. The Danes immediately opened fire from the intrenchments of Duppel. The Prussian batteries replied in the course of the following day (Sunday.)

VIENNA, Wednesday, March 16.

The *Oesteuischische Zeitung* of to-day publishes a telegram from Berlin, asserted to be derived from an authentic source, which states that Denmark is indisposed to accept the armistice and conference propositions in their essential points, but that she is only disposed to accept part of the conditions attached to the armistice.

A telegram from Stamemund states that there was no Danish blockading squadron in sight, and it was the general opinion that the Danes are unable to effect a continuous blockade of the Prussian ports.

The *Post's* Paris correspondent says: "It is evidently the intention of the Sovereigns of Austria and Prussia to occupy eventually Copenhagen, and there they will probably dictate peace."

HEILIGENHAFEN, Tuesday, March 15.

At 5½ this morning the Island of Femein was occupied by the Prussians, who were ferried across from Heiligenhafen during the stormy weather. The whole Danish force on the island, consisting of 100 men, together with the Commander of a gunboat, were taken prisoners.

SWEDEN.

CHRISTIANIA, Tuesday, March 15.

The Storthing opened to day. The King announced a bill for an extraordinary credit of 1,500,000 rigsdalers to enable the Government to give material aid to Denmark in certain emergencies.

The King also desired liberty of action for all eventualities, and an authorization to employ the regular army and navy in aid of Denmark if found necessary.

UNITED STATES DISTRICT COURT.

Before Judge Shipman.

BREACH OF CHARTER—LIEN ON CARGO—DEMURRAGE.

Martin Stepanovit, Jr., vs. *Edmund Gellibrand and 4,922 bushels of Wheat.*—This was a libel filed by the master of the Austrian ship *Imperatrice Elizabetta* upon a charter party. The vessel being in this port, the master, on the 9th of September, 1863, chartered her to Gellibrand by a written charter party to carry a full cargo of wheat and flour to London. By a clause in the charter, the libelant was to have a lien on the cargo for freight, dead freight and demurrage. Thirty-five lay days were allowed for loading and discharging, to begin on Sept. 11.

The wheat in question was shipped on board the vessel by Arkell, Tufts & Co., under a bill of lading stating that it was to be subject to the provisions of the charter party. Gellibrand refused to furnish any more cargo to the vessel. The wheat on board was found to be badly infected with weevil, by which it was heating and sweating. The first intimation of its condition came from the shippers. The wheat was then examined by experts and by the Port Wardens, and it was found to be entirely unfit to go forward on the voyage, and a sale was recommended for the benefit of all concerned. The wheat was discharged from the vessel and the libelant filed this libel against it to recover the sum due from Gellibrand under the charter and to enforce his lien. By an order of the court in the cause the wheat was sold, and the proceeds paid into the registry of the court.

Held by the Court—That the lien on the goods created by the charter and recognized in the bill of lading, attached the moment the wheat was laden on board the ship.

That the obligation rested on the master, in spite of Gellibrand's refusal to fill the vessel up, to carry the wheat forward and deliver it at the port of destination, provided, *and provided only*, he had cargo enough on board to secure his freight for a full load. (Ken's Com, 9th ed., vol. 3, p. 280.)

That the master was not bound to attempt to earn freight by carrying forward an article that, in all probability, would be so depreciated in value at the end of the voyage as to be inadequate to satisfy the claims of the ship under the charter. The shipper having laden his goods under the stipulations of the charter, is not only bound by them, but is responsible for the condition of the goods.

That the admission in the bill of lading as to the good condition of the wheat is not conclusive between the parties.

That the wheat is therefore responsible for the libelant's claim. As no freight was carried, the decree must be for dead freight and demurrage. The amount is to be measured by the difference between what a full cargo of wheat and flour would have netted under the charter, and what would have been netted by any other reasonable freight which the master could have obtained, with due diligence, after the charterer had abandoned his contract. And as to demurrage, the ship should recover from the expiration of the lay days till she could have, with diligence, obtained other employment.

For libelant, Messrs. Larocques & Barlow; for claimants, Mr. Sherman and Mr. Benedict.

COLLISION—PLEADING—WAIVER.

John Aumack et al. vs. *The schooner Queen of the South.*—This was a case of collision. The libelants were owners of the schooner *J. E. Clayton*, which was injured by a collision with the *Queen of the South* in the night of Nov. 26, 1856, off the lower end of the Cedars, on the New Jersey coast. The libel was filed March 5, 1857, and the answer Nov. 30, 1860. Two exceptions were taken in the answer, one alleging a non-joinder of one part owner of the *Clayton*, and the other that the circumstances of the collision and the manœuvres and faults which caused it were not set out with sufficient detail. The exceptions were not brought to argument until the trial of the cause.

Held by the Court—That at this late stage of the case the court will deem all questions arising on the exceptions to have been waived. They should have been determined before the proofs were taken.

That on the proofs, although the evidence is very conflicting, the weight of it establishes the fact that the *Clayton* was coming up the coast close hauled; that the *Queen of the South* was going down the coast with a free wind; that at the time when those in charge of the *Queen of the South ought* to have discovered the *Clayton*—the former was to leeward of the latter; that had she kept her course she would have passed the *Clayton* to leeward and cleared her with safety; and that those in charge of the *Queen of the South* mistook the position or course of the *Clayton*, or both, and luffed, striking the latter on the starboard side, and causing the damage complained of.

That this luffing was a mistake for which the *Queen of the South* should be held responsible.

Decree for libelants, with a reference.

For libelants, Messrs. Beebe, Dean & Donohue; for claimants, Messrs. Benedict, Burr & Benedict.

COLLISION—INEVITABLE ACCIDENT.

John W. Lockwood et al. vs. *The schooner Grace Girdler.*—This was a libel for a collision. The libelants were owners of the yacht *Ariel*, which was run into by the *Grace Girdler* on Aug. 5, 1863, in the East River, off the foot of Stanton-street. The vessels were both beating down the river with the wind to the eastward of south. They had just run out their long tacks, running from the Long Island shore to near the foot of Stanton-street, where both went about. The *Ariel* went about first, and was a little to the leeward of the *Girdler*. Both vessels were then on their short tacks, the *Ariel* being a little in advance. As she began to make headway, she discovered a ferry-boat coming up the river, to avoid which she luffed and was brought into the track of the *Grace Girdler*, and the collision took place.

Held by the Court—That the witnesses do not materially differ, except as to the distance from the docks at which it took place, and the speed of the *Girdler*.

That the *Girdler* having just gone about, and having but little headway on, it was not in her power to have luffed so as to have avoided the *Ariel*. No collision could have taken place but from the untoward circumstance that the ferry-boat was passing across the track of the vessels just as they had gone about. The luffing of the *Ariel* was necessary to avoid the ferry-boat, but it unfortunately brought her across the track of the *Grace Girdler* at a moment when she had no power to avoid a collision.

That the collision must be considered an inevitable accident.

Libel dismissed with costs.

For libelants, Mr. Black; for respondents, Messrs. Beebe, Dean & Donohue.

Alleged Cruelty on Shipboard.

MARINE COURT—TRIAL TERM.

Before Judge Alker.

Corsen Zack vs. *William Barnard.*—This was an action brought by one of the crew of the brig *William Henry* against the master of that vessel to recover $500 for an alleged assault committed on a voyage from Malaga to New-York. The plaintiff alleges that on the voyage the defendant assaulted and beat him, put him in irons and kept him confined without sufficient air, food or water. The defendant denied the assault and ill-usage, and justified his confinement on the ground that plaintiff had been insubordinate and insolent.

The defendant appeared in person and argued a motion to dismiss the proceedings on the ground of want of jurisdiction, his vessel being British. He also cross-examined the witnesses and addressed the jury in his own behalf, sustaining his case very ably. In the course of his remarks he said that there were some degenerate lawyers in this City, who made a practice of sending agents on board newly arrived ships, to find out if there had been any trouble on the voyage, and to stir up sailors to sue their officers.

Mr. Woodward for plaintiff; Defendant in person.

NEWS OF THE DAY.

THE REBELLION.

Lieut.-Gen. Grant, accompanied by Maj.-Gen. Meade, yesterday reviewed the First Corps of the Army of the Potomac, now a part of the Fifth Corps. Everywhere along the lines, on his way to the review ground, the General-in-Chief was enthusiastically received by the troops.

The Palmetto (S. C.) *Herald* says:—"Nothing has been done toward raising the ill-fated iron-clad *Weehawken*, and it is doubtful if any measures will ever be taken to rescue her from the shifting sands in which she lies imbedded, thirty feet below the water's surface. The task of removing such an enormous weight at so great disadvantages, is one which neither Government nor the contractors will willingly undertake. The varying currents where she sank have fixed her there immovably. The *Keokuk*, which went down on the morning of the 8th of April last, will also probably never be brought up."

An investigation has been instituted by Provost-Marshal-Gen. Hall, of the Department of the South, into the burning of numerous buildings at Jacksonville, Fla., and the depredations committed at that place by the Union troops, at the time of the expediton last year. It is understood that the parties proved to be implicated in firing the buildings and taking away property, will be tried for arson and theft.

The rebels are now reported to have five guns in position on Fort Sumter.

FROM EUROPE.

The steamship *City of Manchester*, with one day's later news from Europe, arrived at this port yesterday. The *Alexandra* case was resumed in the House of Lords on the 14th of March, the part of the defendants being argued by Sir Hugh Cairns, who contended that the Court of Error was right in refusing to hear the appeal from the Court of Exchequer. The Attorney-General replied in behalf of the Crown, and it was expected that on the 17th inst. the Lord Chancellor would announce when judgment would be delivered. In commenting upon the case, the London *Times* says that there is a possibility that the House of Lords may decline jurisdiction. Such a disgraceful result would be owing to the slovenly way in which acts of Parliament are drawn and modified in Committee. Six seamen were brought up at the Cork Assizes on the 14th, indicted for an infraction of the Foreign Enlistment Act, in agreeing to enter the United States service as sailors on board the *Kearsage*. The prisoners pleaded guilty, and were released on promising to appear for judgment when called upon. The bodies of the victims of the Sheffield disaster, to the number of 178, had been recovered, leaving 80 yet missing. Another shocking casualty had occurred from the breaking of a pump at Spittlewell Pits, by which fourteen men were drowned. The Conservatives in the British Parliament had determined upon a strenuous effort to overthrow the Ministry after Easter. Mr. Roebuck's diatribe against the North had been editorially denounced by the London *Times*. There had been a further exchange of shots between the Danes and allied German forces, with unimportant results. The Prussians had occupied the Island of Femein, capturing the garrison of 100 Danes. It is said to be authentically asserted that Denmark is indisposed to accept the armistice and conference propositions in their essential points. A Paris rumor says that Austria and Prussia eventually intend to occupy Copenhagen and dictate terms of peace from that city. The King of Sweden had indicated his intention to assist Denmark in certain emergencies, and had asked for an extraordinary loan. In Rome conflicts between the Papal and French troops continued, the populace siding with the former. The rumor of a revival of the Holy Alliance was refuted by the *Journal de St. Petersburg*.

CONGRESS.

The Senate, yesterday, did little business, adjourning at an early hour, after passing resolutions of respect to the memory of the late Owen Lovejoy. A bill to locate a naval depot and yard on the Delaware River was referred to the Naval Committee, and a bill to appropriate money to pay the expenses of the Minnesota Indian war was referred to the Committee on Military Affairs.

In the House yesterday, Mr. Stevens' joint resolution for an Anti-Slavery amendment to the Constitution was postponed for two weeks. Several minor bills pertaining to the organization of the navy were passed. The National Banking Law was then considered, and Mr. Hooper's was passed. It provides that banks with a capital of not less than $50,000 may, with the approval of the Secretary of the Treasury, be organized in any place, the population of which does not exceed six thousand. Mr. Boutwell's amendment to strike out the authority proposed to be given to the banks to buy and sell gold and silver coin and bullion, and loan money on real and personal security, was rejected. An amendment proposed by Mr. Brooks, striking out the requirement that every director of a bank, during his whole term of service, shall be a citizen of the United States, was also rejected. A proviso was added to the section, to the effect that not more than one-sixth of the circulation, furnished to any bank, shall be of a less denomination than five dollars, and that after specie payments shall have been resumed, no circulation of a less denomination than five dollars shall be furnished to any such association.

STATE LEGISLATURE.

In the Senate yesterday, adverse reports were received and recommitted relative to the Brooklyn Fire Department Bill, the petition of the Staten Island Ferry Company for a new ferry slip, and the incorporation of the Long Island Water Works Company. Also, adverse reports were made and agreed to, concerning the New-New-York Aldermanic Tax Levy Bill; the Bill for a Market in the Eighth-avenue; the Brooklyn Park-avenue Bill; the amendment of the charter of Brooklyn. Several new bills were introduced, and the following were advanced to a third reading: The General Appropriation Bill for the support of the State Government; for the payment of the interest on certain canal drafts and awards; incorporating the Central Park Hotel Company.

In the Assembly, yesterday, the following bills were passed: To legalize certain acts of the New-York Common Council; to amend the charter of the Sixth-avenue Savings Bank; to incorporate the New-York American Club. Among the reports presented was one against granting additional powers to New-York Police Magistrates.

GENERAL NEWS.

The sale by the Comptroller of several ferry franchises, which was to have followed the sale of wharves, for various reasons has been put off till Monday, April 11, and yesterday, in consequence of the death of the late Superintendent of Markets, Mathias W. Gooderson, the sale of other leases of Corporation property—chiefly of market cellars—was postponed till 1 o'clock P. M. to-day. Among other five-year leases to be disposed of to-day will be tne lease of the hotel at the foot of Eighty-sixth-street, North River.

The annual trade sale of books commenced yesterday at No. 498 Broadway. The attendance was large; dealers from different sections of the country were in attendance, and a successful sale is indicated. There are 144 invoices, and those offered yesterday readily sold, and brought satisfactory prices.

The weekly report of the City Inspector shows that the number of deaths in New-York during the week past was 485—an increase of 13 over the previous week, and of 40 over the corresponding week of last year. From fever there were 40 deaths, and from diseases of the lungs 47. One person died from the use of chloroform, and nine from casualties.

In the Court of General Sessions, yesterday, Peter Burke, one of the July rioters, known as the "Man on Horseback," was tried upon an indictment for robbery in the first degree. Prisoner was acquitted on a technicality, but was remanded to prison to await his trial on other charges of robbery and arson.

The Live Stock Markets have been well supplied with animals during the past week, the total being 26,862, or 10,000 more than for the previous week. Of these 5,058 were beeves, 834 veals, 12,430 sheep, and 8,361 hogs. The close of Lent creates a greater demand for meats of all kinds, and trade is generally good, at about the old rates. ....Beef Cattle footed up nearly 4,400 at the Forty-fourth-street yards, Monday and Tuesday, all but 400 of which were on sale Monday. Prices began at an advance of ½c. ℔ lb. but fell off before the close, to ½c. ℔ lb. lower than one week ago, the average of the transactions being about 13½c. Some extra fat cattle brought 16c. ℔ lb. for the meat, but generally good retail steers could be had for 14c.@15c. The stock was nearly all sold. ....Sheep are in good request at 9½c.@9¾c. ℔ lb. for good fat lots....Live Hogs are selling quickly at 8¾c.@9c. for corn-fed, and 8½c. for distillery hogs.

Flour and Wheat were inactive and cheaper yesterday. Corn was salable and firm. Oats were depressed. Provisions were in less demand; Pork and Lard were heavy; Hay, Sugars, Whisky and Petroleum were in fair request and buoyant. Metals were held more firmly but were rather quiet. Hops, Hides, Leather, Seeds, Tallow and Tobacco, were moderately inquired for. Freights were dull and heavy.

The price of Gold was 1 per cent. lower than yesterday, and Stocks buoyant in the afternoon. Money in quick demand at 6@7 ℔ cent.

The Ohio Copperhead State Convention.

People looked forward to the doings of this collection of Copperheads with a good deal of curiosity. Of course these doings, of whatever character, will be of very little practical consequence, for there can be no consequence without power, or at least a possibility of power. No State in this Union is more immovably loyal, and more inflexibly faithful to the war against the rebellion, than the great State of Ohio. Yet, though it was of no public moment what these Copperheads might do, it was a matter of curious speculation what they would do. How would they treat Vallandigham, "the martyr?" Last year they made common cause with him—held him out as the immolated embodiment of all the sanctities of the Constitution—and, with absolute confidence, proclaimed their purpose to avenge him with a sweeping extinction of both Lincoln and the war. The people settled the matter, when the time of trial came, by striking them to the dust, and piling over them a majority never before heard of—one hundred thousand clean. It has been a question what would be the effect of this popular visitation. Would it impel these fomenters of faction to desert their great martyred apostle, or not? It all depended upon the quality of their own martyr spirit. If it were genuine, of course they would adhere to his name and faith with a fidelity only made the stauncher by tribulation. If it were spurious, why then there would be faltering and shuffling, and probably an abandonment outright.

The test came up in this Convention on the question of putting "the martyr" on the ticket as one of the delegates at large to the National Convention. Of course, he would not be able to attend the National Convention personally, but his substitute might easily discharge all his duties. His appointment would be the most emphatic protest against the "tyranny" of which he had been made a victim, and a testimony to the world that his followers still remained true and faithful. It was very doubtful how the ordeal would be decided. On the one side was the reproach of cleaving to a man whom the people had repelled with an aversion that seemed almost like detestation. On the other side was the reproach of abandoning a leader to his fate at the time of his misfortune, when he most required sympathy and support, and when he was suffering the penalty of the very conduct for which they had extolled him to the skies. The decision was a very close one. Out of over four hundred votes given, there was a majority of only five one way. But that majority, slender as it was, yet did the business effectually. Vallandigham's name was refused a place on the list of delegates. What was an unkinder cut yet, not the slightest allusion was made to him in the resolutions adopted by the Convention. The majority would not give him even the "cold respect of a passing notice." It was manifestly their determination to disconnect the party as completely as possible from all further association with the man with whom most of all they were anxious, last year, to identify it.

If this abandonment proceeded from a change of principle, it would be less discreditable. But there is no evidence of any change of that sort. The resolutions which so carefully avoid all allusion to Mr. Vallandigham still speak plainly enough against the war, of which Mr. Vallandigham was the enemy. They impute certain characteristics to the war as now prosecuted; say that this war must be opposed, and demand "the immediate inauguration of peaceable means to obtain an honorable settlement, and the restoration of the Union under the Constitution." This is precisely in the same vein as all the peace talk of the party last year. It means simply an abandonment of all further attempts at coercion, and a complete remission of the destinies of the country to the chances of negotiation—which every intelligent man knows to be nothing more or less than a consent to a division of the Union, and an acknowledgment of the Confederacy. The rebel chiefs are just as determined to-day as they ever were to listen to no terms short of this. "The only terms we will either give or take are the terms which Gen. Lee shall dictate in Faneuil Hall," was the language of the Richmond *Examiner* no longer ago than last week. We laugh at it, because we know that Gen. Lee will as soon dictate terms in the horn of the moon as in Faneuil Hall. But yet it is the language of continued defiance. It expresses the spirit of the rebel Government. Whether the mass of the Southern people have this spirit or not, is of little consequence. Enough that the rebel Government has it, and that that Government has supreme control of the armies by which alone the rebellion is maintained.

It is as natural for the Ohio Copperheads to avoid Vallandigham, as it is for a burnt child to avoid fire. But if they imagine that they are any safer for doing this, while they yet stand on a peace platform, they will find the delusion just as complete as that of last year, which brought them such direful defeat, when they were confident of victory. The people of Ohio are as far from accepting peace, as they are from accepting Vallandigham; and the Ohio Copperheads, in holding to the one while discarding the other, are only preparing themselves for another total rout.

Victims of Misplaced Confidence.

We are afraid we have been swindled. It looks very much as if we had been the victims of a misplaced confidence. Trusting entirely, as we stated at the time, to the assertions of the Copperhead press, we have made mention of sundry movements alleged to be in process for the more wide-spread diffusion of the new political gospel of *Miscegenation*, and for the general elevation of the whole world and the rest of mankind to the sublime level of the African race. Catching, perhaps, somewhat of the enthusiasm with which this subject has been discussed by our cotemporaries, we have also ventured to picture some of the glories of the coming state, when all men should be of one color, and all shades and crinkles should have disappeared forever.

We have received deputation after deputation, and letter upon letter, from parties claiming to be well informed, declaring our allegations to be false, and denouncing our conduct in making them, in terms which we shall not repeat, and which we shall only characterize as more forcible than elegant, and—not to put too fine a point upon it—as decidedly profane. The "colored people" are particularly indignant. The venerable lady of color who removes the dust and ashes of the rooms inhabited by the Loyal League, but who also feels a deep and highly creditable interest in the principles and reputation of that patriotic club, tottered up our stairs, a day or two since, for the purpose of denying, in language which would have had still more point if she had had more teeth, that a colored parson is kept at the club to marry impatient miscegenators, at any hour of the day or night. She declares that she knows every nook and cranny of the building, that she sweeps it throughout twice a day, and that no parson, however black or however small, could possibly be so concealed as to escape her observation. Besides, she scorns the idea that any colored parson, who had any proper regard for his color or his cloth, would ever degrade his race by marrying one of them to a white. Such things, she has heard, are sometimes done by white folks, but never by *her* people. She brands the whole story as an infamous fabrication, designed at once to degrade the colored race, and deprive her of her situation. Sundry deputations of eloquent gentlemen from Republican clubs are equally emphatic in their protestations. They deny that they intend hereafter to expel from their party every man who has not black blood in his veins, and aver that they have not the slightest intention of inserting a plank in their platform making color a test of loyalty, either to country or to party. We have letters, too, from indignant colored cooks, repudiating all such designs as the Copperhead stories already referred to impute to them, and warning all white miscegenators out of their kitchens and off their premises.

All this body of evidence staggers us. If it is true, the Copperhead newspapers have been spreading false reports, which is scarcely conceivable. Before we yield to so shocking a suspicion we should like to have something a little tangible. We should like to ask Mr. Jay, for example, whether he does not hold that it is every man's duty, as a matter of abstract principle, to marry a negro, no matter how many wives he may have already? We should like to know whether the President of one of our Republican clubs has not in his possession a letter from President Lincoln, declaring that a house divided against itself cannot stand,—that the people of this country must either be all white or all black, and that this half-way work is contrary to the Constitution, and cannot be tolerated much longer? Has not Mr. Seward declared that an irrepressible conflict between blacks and whites is an absolute necessity, and that it can only be secured by their intermarriage? Is it not one of the designs of the Radicals in the coming National Convention to require Mr. Lincoln, as a candidate for renomination, to pledge himself to appoint no man to any office worth $3,000 a year, who is not at least half black, and to recognize none below the grade of octoroon as eligible to any office whatever under the Federal Government? And has not Chief Justice Taney been forced, by fear of premature death and discharge from office, to agree to bring the Supreme Court to decide that none but blacks are citizens of the United States, and that mere white men have no rights which negroes are bound to respect? When we receive explicit replies to these questions, we shall know better what to think of the Copperhead reports we have already noticed. Until then we shall suspend judgment.

Meantime we are very glad to learn that our vigilant fellow-citizens are taking ample precautions against the designs ascribed by our Democratic cotemporaries to the Republican party. The colored people are planting cannon in front of their dwellings, to defend themselves against a miscegenatory raid of the white bachelors of Upper-ten-dom. Barricades have been built across Shinbone-alley, and the stern glitter of ivory through all that region betokens the readiness of the population to measure heels with the white trash of Fifth-avenue and Madison-square. The Copperheads are responsible for this state of things. They have aroused the whole colored community, by their highly-colored pictures of the connubial fate that awaits them at Republican hands, to a state of intense excitement. We are by no means satisfied that their statements are true: but we *are* satisfied that the fools are not all dead, and that a great many persons will make themselves very unhappy at the bare possibility that there may, after all, be something in them.

Extermination.—The rebels are perpetually telling us that we will have to exterminate the whole population of the South before we can bring their territory back into the Union. Now, at the late election for State officers in Arkansas, held under the National flag and authority, there were polled seventeen thousand votes—being one-third the entire vote of the State at the last Presidential election. Yet in other days we heard the like rebel cry from Arkansas, that we would have to exterminate everybody there before it would submit. Probably these rebel malignants simply mean that *they* themselves must be exterminated, which is quite likely to be true. Noah Webster tells us that to exterminate means, primarily, "to drive from within the limits or borders," and we shall have no peace until all malignant traitors are driven either to the other side of Jordan or of the Rio Grande.

Death of an English Officer of American Birth.

We copy from the London *Times* of the 9th inst. the sad record of the early death of a young English officer of great promise, who was born in this City, and whose parents, Mr. and Mrs. Rupert J. Cochrane, were known by many of our oldest residents. He was a nephew of Hon. Bayard Clarke, formerly member of Congress from the Westchester District of this State, and the brother-in-law of Edward King, Esq., son of the late Hon. James G. King:

An Officer Shot.—It is our painful duty (says the *Oudh Gazette*) to record a fatal accident that happened to an officer of the Eighteenth Bengal Cavalry while out shooting, about 14 miles from cantonments. After enjoying their sport throughout the morning the sportsmen had rested for tiffin, and were just rising to begin shooting again, when one of them, Maj. Gough, called for "some one with stronger fingers than his own," to come and draw back the safety-guard of his rifle trigger. He was at the same time seated on the ground, with the butt of the rifle resting on his thigh, the muzzle in the air, and pointed across a jheel. One of the others went to help him, and a few moments later, Mr. Cochrane, who was just then lighting a cheroot, moved to give his aid, passing, as he did so, before the rifle. At that very instant the hammer, that had apparently been resting on the bolt of the guard only, fell on the cap, and Mr. Cochrane was shot through the heart. His death was instantaneous. The regiment to which he belonged, and a large circle of his friends in the army, have lost, through this deplorable accident, an officer of proved ability and a friend who will be regretted and missed in every circumstance of life. Mr. Cochrane was senior Lieutenant of her Majesty's Thirty-fourth Foot, and had been for two years and a half Adjutant of the Eighteenth Bengal Cavalry. He wore the Crimean, the Turkish and the Indian medals.

Fatal Casualty on the East River Railroad.

GREAT EXCITEMENT IN AND AROUND BELLEVUE HOSPITAL—A BODY TAKEN BY FORCE FROM THAT INSTITUTION.

John Donnelly, a lad 8 or 9 years of age, was on Monday evening last attempting to steal a ride by hanging to the front platform of car No. 70, of the East River Railroad line. As it was passing along First-avenue, near Twenty-seventh-street, the boy slipped off accidentally from the platform and fell on the other track.

Just as he fell another car was passing in the opposite direction, and before the driver thereof could put on the brakes, or check his horses, the wheels passed over his head, body and legs, injuring him so badly that he died while being conveyed to Bellevue Hospital. He was, however, taken inside of that institution, the body laid out in the usual manner, and the Coroner notified to come and hold an inquest. Meantime the intelligence of the lad's death had been conveyed to his parents, and they, in a half-frantic state of mind, at once repaired to the hospital and demanded the possession of the body. The authorities there, of course, had no right to surrender the body until the conclusion of the inquest, and they so stated the case to the parents. They then left in a high state of excitement, and soon returned with a large crowd of men and women, who forcibly burst open the gates and scaled the walls of the institution, rushed frantically through several rooms and halls, till at last they found the dead boy in a coffin. They seized it and hurried from the house, amid the protestations of the Hospital officers. The latter found it useless to contend against such numbers of highly-excited men and women, and therefore had to content themselves with [illegible] remonstrances. The body was taken to the residence of the parents, southwest corner of First-avenue and Twenty-sixth-street, where it is reported that Coroner Collin will hold an inquest this morning. So far as we learn, no blame is attached to the driver of the car.

OUR CONSULAR SYSTEM.

Letter from the Secretary of State to the Chairman of the Senate Committee on Finance.

Department of State,
Washington, March 16, 1864.

Sir: Referring to my communication addressed to you on the 7th of January last, and in view of the amendment which has been offered by you, at the instance of the Committee on Finance, to restore the provisions of law which formerly authorized, as an important part of the Consular system, the appointment of Consular pupils, I beg leave to invite your attention to the Consular Convention between the United States and France, and also to the regulations for the government of Consular pupils prescribed by the President of the United States, at the recommendation of Mr. Secretary Marcy, under the authority conferred by the 22d section of the Diplomatic and Consular Act of Aug. 18, 1856.

In the consular convention above mentioned, which was negotiated by Mr. Everett, one of the most distinguished of my predecessors, whose experience in the diplomatic service of the United States had made him well acquainted with the wants of the consular service, the term "consular pupils" (*les élèves consuls*) first occurs in our diplomatic history. It was provided by the convention that "consular pupils shall enjoy the same personal privileges and immunities as consuls general, consuls, vice-consuls, or consular agents.

In case of death, indisposition or absence of the latter, the chancellors, secretaries and consular pupils attached to their offices, shall be entitled to discharge, *ad interim*, the duties of their respective posts, and shall enjoy, while thus acting, the prerogatives granted to the incumbents.

"The respective consuls-general, consuls, vice-consuls, or consular agents, as well as their consular pupils, chancellors and secretaries, shall enjoy in the two countries all the other privileges, exemptions and immunities which may at any future time be granted to the agents of the same rank of the most favored nations."

This convention has been declared by a competent English writer to be "the most complete consular convention ever concluded," * * * * * "and likely to be taken as a precedent for future treaties on the same subject."

You will observe that in the regulations for the government of consular pupils, who must be citizens of the United States, prescribed after the negotiation of the convention with France, and the passage of the law above-mentioned, provision is made for the examination of candidates prior to appointment, by a board to consist of three examiners, one of them to be the Assistant-Secretary of State; the mode of examination, the subjects on which the pupils are to be examined, also the clerical and other duties of such pupils, are carefully indicated. They are expected to "prepare or copy such portions of the consular correspondence with the Department, and such official returns and reports as the principal consular officer may direct, so as to enable the Department to judge of their ability, and also their improvement in consular duties, and their fitness for promotion in the consular service."

Quarterly examinations of the pupils, especially in the Turkish and Chinese languages, are required, and reports are to be made by the consular officer to whom these pupils are subject, of the results of such examinations. The last section of the chapter of the regulations upon this subject is so comprehensive that I quote it entire:

"Diligence in the discharge of their consular duties, obedience to the instructions of the consular officer to whose consulate they are assigned, a courteous bearing toward all persons having business with the consulate, uprightness of conduct in all respects, will be expected from consular pupils. Disobedience, neglect of duty, the abuse of their credit in pecuniary transactions, or exceptionable moral conduct, will be followed by the revocation of their commissions. Consular pupils possessing the requisite qualifications, and exhibiting an aptitude for the consular service, who have been faithful in the performance of their consular duties, will from time to time be recommended to the President for promotion."

Other nations, especially Great Britain and France, have found in the extension of their commercial intercourse, the advantage of training up such a class of public officers. At the present time Great Britain has in China alone seventeen student interpreters, officers corresponding with our our title of consular pupils, fifteen assistants, and four interpreters; in Siam two student interpreters, two assistants, and one interpreter; in Japan six student interpreters, six assistants, and five interpreters. From time to time promotions are made from the class of student interpreters into that of assistants, and afterward of interpreters. Thus, Mr. Pedder, who is at the head of the list, was appointed student interpreter at Canton, Feb. 17, 1848, assistant July 1, 1851, interpreter March 12, 1855, and he is now acting consul at Amoy.

It is believed that if the authority be given to appoint consular pupils, it will eventually lead to the discontinuance of the practice which has heretofore prevailed, although discountenanced by the Department, of employing foreign clerks, who can be obtained at low rates of compensation, to assist in the discharge of consular duties. The abuses growing out of this course led one of my predecessors, Gov. Marcy, to issue a regulation that "where it is practicable, no other than citizens of the United States are to be intrusted with the performance of any consular act, and consular clerks only employed who owe allegiance to this Government; the records of the United States committed to the charge of consuls are to be kept from the perusal of all aliens."

"In my opinion," said Mr. Hawthorne, the late Consul at Liverpool, "the whole staff of clerks should be appointed, not by the Consul, but by the State Department, of which they should be the servants, and not removable by the Consul except on grounds approved by the Secretary of State. With clerks of my own selection, I would engage to commit defalcations to the extent of at least one-half of the receipts of the office, without the possibility of proof against me. No man ought to be exposed to so great a temptation as this. Many men will certainly yield to it; and those who will not yield will find it difficult to make their integrity manifest. I may remark also that the consular business requires special instruction and familiarity with it."

As an illustration of the truth of this statement, I beg leave to refer to the printed report of the Fifth Auditor, dated Nov. 29, 1861, in which he stated that the immediate successor to Mr. Hawthorne in the consulate at Liverpool, "became a large defaulter to the Government, spent all the funds he could reach, neglected the payment of claims for food, clothing, and medical attendance of our sick and destitute seamen, and, by a course of plunder and profligacy unequaled in our consular history, contracted public and private debts which probably exceeded $200,000. Such a course of proceeding could not have been conducted for years had the office been provided with a clerk or pupil, appointed by the President and responsible to this department.

By way of contrast, I may state that the present consul at the same port, Mr. Dudley, paid into the Treasury last year (1863) $19,908 58, the amount of consular fees collected by him. During the same period there was paid by masters of vessels into the consulate, on account of extra wages for seamen discharged, the sum of $50,915 22, of which the sum of $1,561 81 only was paid for the relief of seamen, and $32,270 73 paid to the seamen on whose account the same had been exacted, leaving a balance of $18,644 49, which has been fully accounted for, belonging to the Government.

It has been suggested that intelligent, well educated young men, if appointed consular pupils, will not continue long in the consular service. To this objection the reply may be made that during the whole period of their service they are not being simply educated at the public expense, but are rendering, in the clerical duties which they perform, a full equivalent for the compensation which they receive. Even if they retire from the consular service their education is not lost to the country, and from time to time it will be found hereafter that they will be selected to fill important positions abroad in the diplomatic and consular service, in consequence of their practical acquaintance with commercial questions and their knowledge of the language and customs of the people among whom they may be sent to represent the United States.

In fact, however, the instances even now are not unfrequent when young men entering the diplomatic and consular service have made themselves so useful as to be continued through all Administrations of Government.

The Secretary of Legation and Dragoman of the United States at Constantinople went thither, a mere youth, with Commodore Porter, our first diplomatic representative at the Porte, and has been continued there ever since.

Every consul-general appointed to Havana has found it indispensable to retain the services of Mr. Savage, as vice-consul-general, at the rate of $2,000 per annum, which is paid by the consul-general from his own compensation. Mr. Savage entered the consulate nearly twenty years ago, a mere copying clerk; and for nearly half the time during the last ten years, has efficiently and judiciously performed the responsible and delicate duties of that important post.

Consul W. H. Vesey commenced his consular service nearly forty years ago as a copying clerk in the consulate at Havre. After a term of service there he was transferred to the St. Ubes, in the capacity of consul, and thence successfully to the more important consulates of Lisbon, Antwerp and Havre; and [illegible] lastly to Aix-la-Chapelle, the most important consulate in Prussia.

These instances, and others which might be mentioned, which are exceptional under the present defective system, will, it is believed, become the rule when it is seen that the consular service really offers a career in which the compensation, though moderate, is certain, and the position respectable and useful.

In my former communication I adverted to the increase of labor and expense which is now required from consuls through the system of triplicate invoices. Notwithstanding this, however, I have carefully abstained from recommending any increase of the consular compensation, judging it proper, in the present exigences of the Treasury, that provision should be limited to such incidental relief as might be given by the appointment of consular pupils or clerks at those consulates where the labor has been made the greatest.

The chief value of the system of triplicate invoices, by which more than $100,000 will be directly paid into the Treasury of the United States from the increase of Consular fees from this source alone, aside from the protection which it gives to the revenue in preventing undervaluation, depends, as stated by the Secretary of the Treasury, "upon the integrity of the Consular seal and certificate, which should be put beyond all possible question, or the provisions of the Act of 3d of March, 1863, may be defeated."

The employment in the Consulates as chief clerks of educated young men, holding allegiance to the United States, in preference to aliens, will go very far toward the accomplishment of the objects contemplated by the act.

I have the honor, to be, Sir, your obedient servant,

WILLIAM H. SEWARD.

Hon. William Pitt Fessenden, Chairman of the Committee on Finance, United States Senate.

FROM ALBANY.

The Soldiers' Voting Bill—Hurrying Through the Bills—Pressure of Business—The Lexington-avenue Railroad.

Correspondence of the New-York Times:

Albany, Tuesday, March 29, 1864.

The bill providing the way in which soldiers may vote under the amendment of the Constitution of this State, came up in Assembly this morning as special order. It was expected that a good deal of opposition would be manifested by the Democratic part of the House to the provisions of this bill. At the suggestion of a Democratic member, however, the debate was postponed, and the bill made special order for Thursday morning next. An important political discussion at that time is anticipated.

The two Houses are busily at work upon the mass of bills upon the files. Each day in the Assembly, a great number of bills are recommitted to the standing committees under the resolution which provides for this method of legislation, instead of resorting to a grinding committee. Each day, also, these committees report a large number of bills complete, and they are read the third time and passed. This is slow and tedious work, as the list of members has to be called by the clerk, in the New-York Legislature, for every bill that is passed. In the Senate, also, the pressure for time is beginning to be felt. Resolutions have been adopted this morning, tending to give less time to debate and more to business. A Senate grinding committee has been alluded to as a probable necessity, and the time of the daily sessions extended.

As the time for legislative action becomes less, the advocates of local and private bills are becoming more urgent. The railroad committees are besieged and worried. It is not easy for them to get through with the duties that fall properly and legitimately to their share, not to mention the quarreling and contention to which they have to listen, and to which members are of course made parties so far as that can be done. Legislation during the last few weeks of the session is too hurried to be safe. This is not the fault of members; the crowd of business pressing upon them requires more time than the hundred days for its transaction. As the number of bills increases year by year, this pressure is more and more felt, and an extension of the time for the business of legislation is more imperatively demanded.

The application for a grant to construct a railroad in Lexington-avenue was urged very ably before the House Railroad Committee yesterday afternoon. It is regarded as very probable that the committee will report the bill favorably.

Customs' Decisions.

The venerable Rev. John Pierpont, in November, 1861, began, and in March, 1864, finished, a Digest of the Decisions and Instructions of the Treasury Department to Collectors of Customs, contained in fifty-four folio volumes, which he has reduced to one. The Secretary of the Treasury has sent him the following complimentary letter:

Treasury Department, March 10, 1864.

My Dear Sir: I have examined with entire satisfaction the folio volume you have just completed, being a Digest of the Decisions and Instructions of the Treasury to Collectors of Customs, contained in fifty-four folios. I regard this labor of yours as a monument of talent and industry, and of inestimable value in conducting the correspondence of the department. You will please accept the assurances of my high appreciation of the genius and learning which have placed your name among the most eminent of American authors, and also for your lifelong, earnest and fearless advocacy of the cause of liberty and the claims of humanity. It will be my pleasure to contribute to your well-being, and ever to recognize your claims to my highest consideration for all you have done and are now doing. As a very inadequate manifestation of my appreciation of your services, I have this day promoted you to a third-class clerkship.

With best wishes, your friend,
S. P. CHASE.

Rev. John Pierpont, Treasury Department.

Lecture by Count Joannes.

Last evening Count Joannes delivered a public oration before a rather limited audience at Cooper Institute. He spoke very bitterly of the actions of the present Administration and the conduct of the war, disliked drafting, believed one volunteer to be worth seven drafted men, thought our great mistake had been in underrating our enemy, whom he considered a brave and valiant class of men. He believed President Lincoln to be an honest man, but thought him so surrounded by bad men as to be unable to do as he ought. Secretary Seward he believed to be a gentleman and a scholar, but very deceitful and not to be trusted. His address was rather rambling and disconnected, and was interrupted frequently by hisses and applause. One person, who was rather demonstrative, was removed by the police. Other than that the lecture passed off quietly.

To Officers in the Army.—BROWN'S BRONCHIAL TROCHES, or Cough and Voice Lozenges, contain ingredients acting specifically on the organs of the voice; they have an extraordinary efficacy in all affections of the throat and larynx, restoring their healthy tone when relaxed, either from cold or over-exertion of the voice, and produce a clear and distinct enunciation.

As there are imitations, be sure to obtain the genuine.

Morton's Gold Pens are now sold at the same prices as before the commencement of the war; this is entirely owing to the Manufacturer's improvements in machinery, his present large Retail Business and Cash-in-Advance System; for, until he commenced advertising, his business was done on Credit and *strictly with the Trade.*

The Morton Gold Pens are the only ones sold at old prices, as the makers of all other gold pens charge the Premium on the Gold, Government Tax, &c.; but Morton has in no case changed his prices, wholesale or retail.

Of the great numbers sent by mail to all parts of the world during the past few years, not one in a thousand has failed to reach its destination in safety; showing that the Morton Gold Pen can be obtained by any one, in every part of the world, at the same price, postage only excepted.

Reader, you can have an enduring, always ready, and reliable Gold Pen, exactly adapted to your hand and style of writing, which will do your writing vastly cheaper than Steel Pens; and at the present almost universal High-Pressure Price of everything, you can have a Morton Gold Pen cheaper, in proportion to the labor spent upon it and material used, than any other Gold Pen in the World. If you want one, see "The Pen is Mightier than the Sword," in another column.

"A Clear Head," Sound and Balmy Sleep, with (the *desideratum,*) "CLOSED LIPS," are pleasing results from the use of DURNO'S CATARRH SNUFF. Sold by all druggists.

DEAFNESS AND CATARRH CURED.

No. 420 SIXTH-AV., NEW-YORK, Dec. 2, 1863.

I was deaf for several years, and hearing of the great cures performed by Dr. Von Eisenberg, I was induced to place myself under his care, and I am now happy to state that my hearing was entirely restored after a short treatment. I was also suffering from chronic catarrh, of which I was also cured by the skillful treatment of Dr. Von Eisenberg. I do but justice to the Doctor in stating that in treating me he displayed that skill and knowledge which have already procured for him such a deserved reputation, and that the principles which direct his system of curing Deafness and Catarrh are such as to render success certain, in my opinion. Many months have passed since Dr. Von Eisenberg restored my hearing, and it continues as good as ever.

CATARRH CURED.
READ!

I have been suffering for a long time from a severe Catarrh, with a continual dullness in my head, a tightness across my chest, a weight over my eyes, which were weak, watery, and very painful. My nostrils were constantly obstructed with a pouring fluid. That frequent sneezing, hoarseness of my voice, often attended with a fullness of my throat, great soreness, and a continual dropping. Dr. Von Eisenberg has cured me of all these disagreeable sufferings. may, indeed, say that I feel a new life. The treatment of Dr. Von Eisenberg is as skillful as it is successful. It is in my opinion impossible to overrate the benefit I have received at his hands. I heartily recommend any one suffering like myself to place themselves under Dr. Von Eisenberg's care, with a certainty of being speedily cured.

HARLEM, July 30, 1863.

I have been deaf for over TWENTY-FIVE YEARS, and Dr. VON EISENBERG operated on both of my ears without the slightest pain—a thing that I could not believe could be done. I now *hear* well, and feel as I never felt for the last twenty years. The dexterity and skill with which the operation was performed evince the highest practical ability. *hear perfectly.* It is now over a month since the operation, and I continue to feel as well as ever.

No. 134 ALLEN-ST., NEW-YORK, Feb. 9, 1863.

I have been completely deaf in one ear, and partially so in the other, for above seventeen years, with a disagreeable discharge from both ears, combined with continual rumbling noise in the head, for which I have been treated by a most eminent practitioner in the City without the slightest relief.

I consulted Dr. Von Eisenberg, but I must candidly say that I had no faith in his success when I did so. It is, therefore, due to Dr. Von Eisenberg to acknowledge that I am entirely cured; also, that he displayed that skill and knowledge which have procured for him such an unrivaled reputation. As I have had an opportunity of comparing his mode of treatment with that of others, I can truly state that it is not only superior, but, the principles which direct his mode of restoring the hearing are, in my opinion, certain.

JOHN TAYLOR.

NEW-YORK, July 19, 1862.

This certifies that my mother has been for some time afflicted with partial deafness, suffering from pain, and rumbling noises in the head, together with other indications of a *total loss of hearing.* Dr. Von Eisenberg removed from her ears a great quantity of matter, together with coagulated blood, relieving her instantaneously, and all without pain. It is with grateful thanks that I give this testimony to his skill.

CHRONIC CATARRH CURED.

READ.

NEW-YORK, March 20, 1863.

"This is to certify, that I have suffered from very severe CHRONIC CATARRH, with a dull heaviness in the head. I felt my nose completely stopped up accompanied by continual soreness of the throat, the chills stealing over me with occasional hot flushes, a great tightness of the chest and pain, so much so, that every one thought it was consumption. Having heard of the great cures performed by Dr. Von Eisenberg, I consulted him with but little hope of a cure. I am now happy to be enabled to add my testimonial to the great number already in the Doctor's possession, as to his scientific and successful mode of treatment, as he has shown in my case that skill and knowledge which have procured for him so great a reputation. I am so entirely restored to perfect health that I do most sincerely recommend all sufferers from CHRONIC CATARRH and SORE THROAT to apply at once to Dr. Von Eisenberg with a certainty of being cured."

IN THE YEAR 1863.

Consumption has destroyed more of the human family than any other disease, and the best physicians for many years have despaired of a cure, or a remedy that would heal the lungs; but for more than two hundred years the whole medical world has been impressed that there was a mysterious power and efficiency in the Pine Tree Tar to heal the lungs; therefore they have recommended the use of Tar Water, which in many cases has a good effect; but how to combine its medical properties so as to heal the lungs, has ever been a mystery until it was discovered by Dr. L. Q. C. WISHART, of Philadelphia, Penn., the proprietor of Wishart's Pine Tree Tar Cordial, and has been put in bottles, patented by the United States Government. We say to the afflicted that Dr. WISHART'S Pine Tree Tar Cordial will produce the INVIGORATION OF THE DIGESTIVE ORGANS, THE STRENGTHENING OF THE DEBILITATED SYSTEM, THE PURIFICATION AND ENRICHMENT OF THE BLOOD, which must expel from the system the corruption which scrofula breeds. While this is effected by the powerful alterative (changing from disease to health) properties of the Tar Cordial, its healing and renovating principle is also acting upon the irritated surfaces of the lungs and throat, penetrating to each diseased part, relieving the pain, subduing inflammation and restoring a healthful tendency. Let this twofold power, the healing and the strengthening, continue to act in conjunction with nature's constant recuperative tendency, and the patient is saved, if he has not too long delayed to resort to the means of cure.

INFLAMMATION OF THE LUNGS.
INFLAMMATION OF THE LUNGS.

There is not a medicine discovered that has so much power to dissolve the thick mucus that stops up the wind passages of the lungs as the Pine Tree Tar Cordial, which subdues the fever and inflammation that destroy the power and vitality of the lungs and consign the patient to the grave. We say to all whose lungs are affected, use Dr. Wishart's Pine Tree Tar Cordial with great confidence, as it has restored thousands of cases to health that were hopelessly given up to die.

The Pine Tree Tar Cordial will purify the blood and cleanse it of all scrofulous matter that is constantly breeding sores internal and external. Saltrheum, sore legs and all skin diseases are especially cured by Dr. Wishart's Pine Tree Tar Cordial; it is good to be applied internal and external in the above cases, as it has great power to heal where it comes in contact with the human flesh.

is a great remedy for chronic croup and diphtheria, which is sending thousands and thousands of children to a premature grave. It can be cured by Dr. Wishart's Pine Tree Tar Cordial.

Out of ten thousand cases where it has been tried in the past two years, it has never missed a case where it was taken in time. All families should have it on hand, as it gives instant relief in croup and diphtheria.

ASTHMA AND COUGH.

The Pine Tree Tar Cordial gives instantaneous relief in cases of asthma and whooping cough. It often cures whooping before it runs half its course, as it acts at once upon the phlegm and mucus, and expels them from the throat, and the sufferer is relieved. In case of asthma use Dr. Wishart's Dyspepsia Pills with the Cordial, as they have never been known to fail to cure that disease.

Beware counterfeits. The genuine has the name of the proprietor and a pine tree blown in the bottle. All others are spurious imitations. Price, $1 per bottle, or $8 per dozen.

Sold by all respectable druggists and storekeepers.

WE DENY IT.

Having had our attention called to the report of a meeting held at the Cooper Institute, in behalf of the Sewing Women of the City of New-York, at which statements were made of the prices paid for the manufacture of FINE CUSTOM SHIRTS, and that operatives in that branch of industry were sadly imposed upon by WEALTHY and RESPECTABLE (?) merchants, and seeing, also, that the editors of the daily and weekly journals are disposed to condemn all manufacturers as belonging to that class, we take this method of informing our patrons and the public generally, that, so far as concerns our establishments, the statements made at that meeting are FALSE IN EVERY PARTICULAR. We employ a number of women and girls in the manufacture of our PATENT BOSOM SHIRTS. The work is first-class, and only the best operatives can accomplish it. They are not compelled "TO MAKE BRICKS (SHIRTS) WITHOUT STRAW," (THREAD,) but are furnished with all the materials to prosecute their work. The wages we pay for labor alone has for a long time averaged, for SHIRT MAKERS, FIVE (5) TO SEVEN (7) DOLLARS PER WEEK; girls, three dollars. We deem this card necessary in justice to ourselves, and would say to our customers, that, while we thank them for the past, and hope for a continuance of their favors, in purchasing of us they do not lend countenance to FRAUD AND IMPOSITION.

Respectfully,

DYSPEPSIA AND COSTIVENESS CURED—D. J. TENNY'S CASE.—New-York *Mentor,* Jan. 14, 1860.—Whether the Brandreth Pill is ever convertible into blood, we will not now discuss. But our chief object at this time is to give a statement of a gentleman who says he has taken one of the Brandreth Pills, for at least sixteen months, daily, or about 480 days in succession, and who says that at the end of that time he considered himself cured of dyspepsia, attended by a constant costive state of the bowels, which had troubled him for a long time.

This gentleman, Mr. David Tenny, resides at the Astor House, in this City, and has been in the enjoyment of excellent health ever since he was cured by this treatment. He is an intelligent man, and there is no doubt of the truth of his statement. This proves, at least, that as many as one of the Pills prepared by Dr. Brandreth can be taken for nearly 500 days in succession without harm, and at the end of that time a dyspeptic and costive habit of body may be perfectly cured. This could not be said of any of the cathartics in use by those who style themselves the regular faculty. Sold by all druggists.

Parents, and all interested in education, aware of the value of poetry as an element of the best culture, have felt the want of a more extensive and various collection of poetical pieces, suited to different ages, than is at present accessible—a volume which, while it retains the old favorites, shall, by introducing new and choice though less known poems, embrace a more abundant variety. The present selection is intended to meet this want. Preference has generally been given to lively and striking poems. Picturesque, descriptive, narrative and domestic pieces have been particularly sought, as they generally find their way readily to young hearts.

NOTICE TO THE FIRST AND SECOND MORTGAGE BONDHOLDERS OF THE PITTSBURGH, FORT WAYNE AND CHICAGO RAILWAY COMPANY.—The Board of Directors of the Pittsburgh, Fort Wayne and Chicago Railway Company have requested the undersigned to call meetings of the First Mortgage and Second Mortgage Bondholders, in pursuance of the provisions of the deeds of trust, for the purpose of considering certain modifications of the present financial system of the company, to which the assent of a majority in interest of each of those classes of bondholders by a vote at a meeting is necessary. The principle of the proposed measures was submitted to the annual meeting of the corporation held at Pittsburgh on the 16th inst., at which were represented a majority of the stockholders and of each class of the bondholders, and was unanimously approved.

The undersigned, therefore, in exercise of the authority conferred upon them by Article 12 of the First and Second Deeds of Trust, give notice that MEETINGS OF THE FIRST AND SECOND MORTGAGE BONDHOLDERS will be held at the banking house of Winslow, Lanier & Co., No. 52 Wall-st., in the City of New-York, on THURSDAY, the 7th day of April, 1864, at 11 A. M., for the purpose of considering the aforesaid measures.

At such meetings the bondholders, if registered, may vote in person or by proxy.

Registration on the Voting Register can be made by any holder at the office or agency of the company, at the banking house of Winslow, Lanier & Co., where the books are now open for that purpose, *on presentation by the holder of his bonds, or on his filing the written order of the person last registered as the holder.*

The registration was originally in the names of the persons to whom the bonds were issued. In cases in which the bonds have since changed hands, the present holder can vote only by registering himself, or upon the proxy of the person last registered.

A general attendance of the bondholders is earnestly requested, as well to act on the questions aforesaid, as to perfect the organization contemplated in Article 12 of the Deeds of Trust.

The meetings of the First and Second Mortgage Bondholders will be held separately, but at the same time and place, and the holders of the Third Mortgage Bonds are invited to be present, though their action is not required by the Trust Deeds.

The resolutions adopted at the annual meeting, and the resolution of the Board of Directors requesting a call of meetings of the bondholders, are subjoined.

JOHN FERGUSON, } Trustees for the First and
SAMUEL J. TILDEN, } Second M'tge Bondholders.

RESOLUTIONS

Recommended by the Board of Directors to the Stockholders for adoption at the Annual Meeting, March 16, 1864

Resolved, That it is expedient that expenditures for construction, equipment and objects pertinent thereto, involving new capital, should in the main be provided for by an increase of capital stock of the company.

Resolved, That the increase of capital stock should be made solely for the purpose of building and completing a double track, or such part thereof as may be expedient, and for equipping the road and providing such additional rolling stock, machinery, appurtenances and other facilities as may be necessary to properly do all the business which may offer, and for no other purpose, and should only be issued from year to year in such amounts as the stockholders at their annual meetings may decide upon. Their decision shall be based upon detailed estimate, made by the Board of Directors, of the amount of money necessary for the work of the year, and that the new issue of stock shall only be sold after public notice.

Resolved, That the increase of capital for 1864 shall not exceed $3,500,000.

Resolved, That the stockholders hereby recommend, and, as far as may be necessary, authorize the Board of Directors to make such agreement or arrangement with the holders of the bonds under the trust deeds as will enable them to increase the capital stock, as indicated in the preceding resolutions.

Adopted unanimously by vote of $4,563,000 out of $6,500,000 of stock; $3,729,500 out of $5,250,000 of first mortgage bonds; $3,766,000 out of $5,160,000 of second mortgage bonds, and $1,526,000 out of $2,000,000 of third mortgage bonds, $400,000 not voting because not registered.

Resolution adopted by the Board of Directors this day:

"*Resolved*, That the Trustees under the mortgages, Samuel J. Tilden and John Ferguson, be and they are hereby requested to call, at the earliest moment possible, a meeting of the bondholders, in the City of New-York, to act upon the resolutions adopted by the stockholders at their Annual Meeting in the city of Pittsburgh, on the 16th day of March, 1864, and to obtain, if possible, the assent of the bondholders thereto.

ASTHMA CURED.

Immediate relief afforded, and a permanent cure effected. Apply personally or by letter to Dr. BOURDMAN, No. 914 Broadway.

PRIVATE DISEASES CURED IN THE shortest possible time, by DR. WARD & CO., No. 50 Lispenard-st., near Broadway, without the use of Mercury, loss of time or change of diet. Dr. WARD, from the hospitals of London, Paris and Edinburgh, is the discoverer of the only certain and reliable remedies for diseases of a private character. In 28 years' practice he has cured more cases of Secret Diseases and Wrong Treatment than all others combined. I can and will cure you in less time and at less expense than any other can or will, and those who have been robbed of their money and health, call; it will take but little money and time to restore you. If you have been unfortunate, call at once. By his special experience in this much neglected branch of medical science, he is enabled to guarantee a cure in the most complicated cases. Recent cases of Gonorrhœa or Syphilis cured in a few days, without change of diet or hindrance from business. Secondary Syphilis—the last vestige eradicated without the use of Mercury. Involuntary emissions stopped in a short time. Sufferers from Impotency, or loss of sexual power, restored to full vigor in a few weeks, permanently and speedily cured by a new treatment. Persons at a distance failing to receive prompt treatment elsewhere, may get a permanent cure effected by writing a full diagnosis of their case, addressed to Dr. WARD, No. 50 Lispenard-st. Call, send, or write.

$1,000 FORFEITED AND NO CHARGE UNLESS CURED.—Dr. Hunter's Red Drop cures venereal diseases when regular treatment and all other remedies fail; cures without dieting or restriction in the habits of the patient; cures without the disgusting and sickening effects of all other remedies; cures in new cases in less than six hours; cures without the dreadful consequent effects of mercury; but possesses the peculiarly valuable property of annihilating the rank and poisonous taint that the blood is sure to absorb unless this remedy is used. This is what he claims for it; and what no other will accomplish. Its value in this respect has become so well known that scientific men, in every department of medical knowledge, begin to appreciate it; for hardly a week passes that he is not consulted by druggists, chemists and physicians in regard to some pitiful patient who has exhausted the whole field of the faculty, and still the disease will appear. It is $1 a vial, and cannot be obtained genuine anywhere but at the old office, No. 3 Division-st., New-York City, since 1834. Eight separate rooms and a private entrance. A ten cent bill will secure the Monitor of Health by return mail.

AFFLICTED RESTORED! IGNORANCE EXPOSED! FALLACIES UNMASKED!—Highly important to both sexes, married or single, in health or disease. Mailed for $1, closely sealed, by the publisher, E. WARNER, No. 1 Vesey-st., Astor House.

All who would avoid unsuccessful and barbarous treatment with mercury, copabia, injections, cauterizations, quack specifics, antidotes, instruments, &c., should read this original book, or consult the Doctor, No 173 Broadway, (up stairs,) N. Y., from 10 to 5.

MUSICAL.

CHICKERING & SONS

MANUFACTURERS OF GRAND, SQUARE, AND UPRIGHT PIANO-FORTES, No. 652 BROADWAY.—The superiority of these instruments has of late been amply demonstrated by the voluntary testimony of the foremost artists of the day, who claim for them excellencies of tone and workmanship hitherto unobtained by any other makers.

Mr. GOTTSCHALK'S constant use of the NEW SCALE CHICKERING GRAND PIANO-FORTES has severely tested their musical qualities, and resulted in establishing the justice of the very flattering estimation in which they are held.

STEINWAY & SONS'

GOLD MEDAL GRAND AND SQUARE PIANOS are now considered the best in Europe as well as this country, having received the first Prize Medal at the World's Exhibition in London, 1862.

The principal reason why the Steinway Pianos are superior to all others, is, that the firm is composed of five practical pianoforte makers, (father and four sons,) who invent all their own improvements, and under whose personal supervision every part of the instrument is manufactured. Warerooms, Nos. 71 and 73 East Fourteenth-st., between Union-square and Irving-place, N. Y.

HAINES BROTHERS,

MASON & HAMLIN'S CABINET ORGANS, FOR FAMILIES, CHURCHES AND SCHOOLS—Recognized by the musical profession as greatly superior to Harmoniums, Melodeons and all other small organs. [See our Illustrated catalogue for explicit testimony to their superiority, from a majority of the most eminent organists in America.] Prices, $85 to $500 each.

CAUTION TO PURCHASERS.—The great reputation which our Cabinet Organs have obtained, and the extensive demand for them, have induced dealers to advertise, in some cases, quite different instruments as Cabinet Organs, and in others to represent to purchasers that Harmoniums and other reed organs are the same thing. This is not true. The excellences of our Cabinet Organs, which have given them their high reputation, are the result not merely of the superiority of their workmanship, but also, in large measure, of essential differences in construction, which, being patented, cannot be imitated by other makers. From these arise their better quality and volume of tone and unrivaled capacity for expression. Warerooms in New-York, No. 7 Mercer-st.

TUESDAY, March 29—P. M.

The price of Gold to-day is 165¼ ℘ cent., at which the Customs demand was supplied at the Treasury Office when the Importers were not able to do better on the Street. In the forenoon the open market was for a time under this rate, so that only about one-third of the Customs of the day was settled in Gold Certificates. The price for Bills on London at the close of the Boston steamer mail is 179 ℘ cent. for first-class Bankers. The new arrangement relieving the Gold Room of the daily Customs demand worked to-day to the effect of a much steadier and more consistent market as between Gold and Exchange.

The price of Money varies to the Stock Exchange borrowers from 6 to 7 per cent. There is so much wanted to carry forward the heavy speculations now prevalent at the Board and on the Street, that many of the Brokers make no dissent to the outside rate. The market is very active, but no difficulty is yet experienced in making up the daily accounts at Bank. The subscriptions to the new popular Loan to-day were:

At Treasury Office........................	$202,700
First National Bank........................	309,900
Together........................	$512,600

No report was received from the up-town National Banks, whose agency arrangements are hardly yet complete. Their officers will greatly oblige the press by sending in their daily reports of subscriptions.

The Stock Exchange is generally buoyant this afternoon, after opening with much steadiness in prices at the early Board. The market turned upward on Harlem about 12 o'clock, and the price ran up nearly *twenty per cent.* on the lowest sales of the morning. There was also a very large business in Reading at both Boards, and renewed business in Illinois Central and Michigan Central. Some of the younger and non-dividend Western Shares were weaker than yesterday, while others, like Prairie du Chien, and North-west were in speculative demand. The Miscellaneous list was lower on Cumberland, and higher on International Loan, Pacific Mail, Quicksilver and Delaware and Hudson. After the steamer's mail was made up, Governments continued steady on the 5-20 Loan.

At 4 o'clock the following prices were made, as compared with the same hour on Monday. The other New-York Roads sympathized with Harlem after the Second Board, and a further rise was made on Illinois Central, Michigan Central and Reading. Cumberland Coal recovered its decline. The price of Gold fell off to 165⅛ ℘ cent., and the speculation is very much dulled by the new Treasury arrangement. Two or three of the William-street and Exchange-place firms, who have recently devoted much of their means and credit to the Gold speculation, are now offered more profitable employment in the Stock Market, with money sharp at 6@7 ℘ cent. and a commission.

CONSTITUTION
LIFE SYRUP,
COMPOSED OF
IODIDE POTASSIUM,
with the Compound Concentrated Fluid Extract of
VALUABLE MEDICINAL
ROOTS AND HERBS,
PREPARED BY WM. H. GREGG, M. D.,
Graduate College of Physicians and Surgeons, N. Y., formerly Assistant Physician Blackwell's Island Hospitals, late Medical Inspector New-York State Volunteer Depots, under Gov. Edwin D. Morgan.

CONSTITUTION LIFE SYRUP
HAS PRODUCED
A REVOLUTION IN MEDICINE!

What may seem almost incredible, is, that many diseases hitherto considered hopelessly incurable, are frequently cured in a few days or weeks, and we cheerfully invite the investigations of the liberal-minded and scientific to cures which have no parallel at the present day.

Our medicine is peculiar; by it the seat of any disease is directly reached, and the equilibrium restored.

Those who have suffered long from painful and obstinate diseases,

Those who have vainly sought relief from advertised medicines,

Those who cannot be cured by other physicians—

ARE INVITED TO USE CONSTITUTION LIFE SYRUP.

During the past five years we have contended with obstacles and overcome opposition as herculean as were ever encountered by any reformers.

RAPIDITY OF CURE.

Some say, "Your cures are too quick," while others doubt their permanence, and think that diseases can only be cured by the "slow recuperative process of Nature."

This is our reply:

In health, the body, like a well-balanced scale, is in a state of equilibrium. But when from any cause down goes one side of the scale, we have the effects of disease. What is requisite is, to restore the normal balance of the scale.

CONSTITUTION LIFE SYRUP,
a positive and specific remedy for all diseases originally from an IMPURE STATE OF THE BLOOD, and for all (hereditary) DISEASES transmitted from PARENT TO CHILD.

PARALYSIS.
HEMIPLEGIA. PARESIS. PARAPLEGIA, PARALYSIS AGITANS.

It is so universally admitted that Constitution Life Syrup is the only effective means of restoration in the various forms of Paralysis, that we need not reiterate that it is emphatically the Great Life-giving Power.

DYSPEPSIA.
INDIGESTION. LIVER COMPLAINT. CONSTIPATION.
WEIGHT AT STOMACH. BILIOUSNESS. WANT OF APPETITE.
FLATULENCE. BAD BREATH.

SCROFULA.
STRUMA, GLANDULAR SWELLINGS, ULCERATION,
KING'S EVIL, ERYSIPELAS, SALT RHEUM.

This taint (HEREDITARY and ACQUIRED), filling life with untold misery, is by all usual medical remedies incurable.

RHEUMATISM.
[ARTHRITIS.] NEURALGIA, TIC DOULOUREUX.
LUMBAGO. SCIATICA. GOUT.

If there is any disease in which the Constitution Life Syrup is a sovereign, it is in Rheumatism and its kindred affections. The most intense pains are almost instantly alleviated—enormous swellings are reduced. Cases, chronic or vicarious, of 20 or 30 years' standing, have been cured by us.

NERVOUSNESS.
NERVOUS DEBILITY, SHATTERED NERVES,
LOSS OF POWER. CONFUSION OF THOUGHTS.
ST. VITUS' DANCE. EPILEPSY.

Thousands who have suffered for years will bless the day on which they read these lines. Particularly to the weak, suffering woman will this medicine prove an inestimable blessing—directing their footsteps to a Hope which fulfills more than it promises.

MERCURIAL DISEASES.
SALIVATION. ROITING OF BONES.
BAD COMPLEXION. ACHES IN BONES.
FEELING OF WEARINESS. DEPRESSION OF SPIRITS.

CONSTITUTION LIFE SYRUP purges the system entirely from all the evil effects of MERCURY, removing the Bad Breath, and curing the Weak Joints and Rheumatic Pains which the use of Calomel is sure to produce. It hardens Spongy Gums and secures the Teeth as firmly as ever.

CONSTITUTION LIFE SYRUP
eradicates, root and branch, all Eruptive Diseases of the Skin, like
ULCERS, PIMPLES, BLOTCHES,
and all other difficulties of this kind, which so much disfigure the outward appearance of both males and females, often making them a disgusting object to themselves and their friends.

CONSTITUTION LIFE SYRUP
CURES ALL SWELLING OF THE GLANDS,
either of the Face, Neck, or Female Breast, and should be taken as soon as the swelling is detected, thus preventing their breaking, and producing troublesome Discharging Sores, which disfigure so many of the younger portion of the community, from six to twenty years of age. Young children are very subject to Discharges from the Ears, which depends upon a Scrofulous constitution. These cases soon recover by taking a few doses of the Life Syrup.

All scrofulous persons suffering from general Debility, Emaciation, Dyspepsia and Dropsy of the limbs, abdomen, and in the female, Dropsy of the ovaries and womb, generally accompanied with Inflammation and Ulceration of the Uterus, are permanently cured by Constitution Life Syrup. The disease known as Goitre or Swelled Neck, the Life Syrup will remove entirely. The remedy should be taken for some time, as the disease is exceedingly chronic and stubborn, and will not be removed without extra effort.

Tumors of the Ovaries, Tumors of the Breast, and swelling of other glands of the body, will be completely reduced without resorting to the knife, or operations of any kind.

Epileptic Fits, Sympathetic or Organic Diseases of the Heart, as palpitation, Disease of the Valves, producing a grating or filing sound, Dropsy of the Heart Case and all the affections of this important organ, (persons suffering from any acute pain in this region of the heart) will be greatly relieved by Constitution Life Syrup.

BROKEN-DOWN AND DELICATE CONSTITUTIONS,
SUFFERING FROM INDISPOSITION TO EXERTION, PAIN IN THE BACK, LOSS OF MEMORY, FOREBODINGS, HORROR OF CALAMITY, FEAR OF DISEASE, DIMNESS OF VISION, DRY, HOT SKIN AND EXTREMITIES, WANT OF SLEEP, RESTLESSNESS, PALE, HAGGARD COUNTENANCE, AND LASSITUDE OF THE MUSCULAR SYSTEM, all require the aid of the CONSTITUTION LIFE SYRUP.

FOR ALL FORMS OF
ULCERATIVE DISEASES,
either of the NOSE, THROAT, TONGUE, SPINE, FOREHEAD OR SCALP, no remedy has ever proved its equal.

MOTH PATCHES upon the female face, depending upon a diseased action of the Liver, are very unpleasant to the young wife and mother. A few bottles of Constitution Life Syrup will correct the secretion, and remove the deposit, which is directly under the skin.

In Diseases of the Liver, giving rise to Languor, Dizziness, Indigestion, Weak Stomach, or an ulcerated or cancerous condition of that organ, accompanied with burning or other unpleasant symptoms, will be relieved by the use of CONSTITUTION LIFE SYRUP.

☞ AS A GENERAL BLOOD-PURIFYING AGENT, THE LIFE SYRUP STANDS UNRIVALED BY ANY PREPARATION IN THE WORLD.

Diseases of the Spine, as usually developed in the young, Hip Disease, Neuralgia, and all nervous diseases, and ladies who are suffering from diseases for which they are at a loss to know what to do, we would advise the use of CONSTITUTION LIFE SYRUP. It will restore their pallid countenance, strengthen their weak back and side, give them new energy, new life and happiness.

THE RICH AND POOR
are liable to the same diseases. Nature and science has made the Constitution Life Syrup for the benefit of all.

PURE BLOOD
produces healthy men and women; and if the constitution is neglected in youth, disease and early death is the result. Do not delay when the means are so near at hand, and within the reach of all.

TO MOTHERS AND MARRIED LADIES.

It is the safest and most effectual medicine ever discovered for purifying the system, and relieving the suffering attendant upon childbirth. It strengthens both the mother and the child, prevents pain and disease, and increases and enriches the food. Those who have used it think it indispensable. It is highly useful, both before and after confinement, as it prevents disease attendant upon childbirth.

CONSTITUTION LIFE SYRUP
is the poor man's friend and the rich man's blessing.
Buy it, take it, and be cured.
IT IS UNIVERSAL IN ITS EFFECTS.

It has been from time immemorial the object of philanthropists to find some remedy for the ills of life, and scientific skill has for ages explored every avenue in order to discover the hidden secret. It has been, however, reserved for modern science to bring before the world the great destroyer of disease, and in HOOFLAND'S GERMAN BITTERS are concentrated all those virtues which tend to promote healthy and vigorous life. Unlike the generality of bitters, they are not an alcoholic mixture, but a pure tonic, composed entirely of vegetable substances. They are a positive cure for

The reputation of this preparation is not of a day, nor a month, nor a year, nor is it confined within a limited space, nor is it but known and appreciated by those who move in the circle of fashion and refinement. It is, on the contrary, world wide, and the triumphs of this article have blessed alike the rich and the poor, while like the snow that falls gently on the earth, so this friend of mankind causes its blessing to descend upon the suffering and afflicted. Its virtues are known in every quarter of the inhabitable globe, and the wonderful cures which it is daily performing have won for it the highest post in the temple of science. With such recommendations, backed by incontestible and undoubted testimonials from those who have experienced its curative properties, giving to the public no assertion but what has passed through the crucible of truth, and supported by an array of splendid and hitherto unknown triumphs, what wonder is it that thousands rush to it for relief in the hour of danger.

* * * * *

I am the recipient from you of one of the greatest favors that can be conferred upon man, viz: That of health. For many years have I suffered from one of the most annoying and debilitating complaints that the human family can be afflicted with, Chronic Diarrhœa.

During the long time I was suffering from this disease I was attended by regular physicians, giving me but temporary relief. The cause seemed to remain until I was induced to try Hoofland's German Bitters. After the use of a few bottles of that valuable medicine, the complaint appeared to be completely eradicated.

I often inwardly thank you for such a valuable specific, and, whenever I have an opportunity, cheerfully recommend it, with full confidence in its reliability.

Truly, yours, JOHN B. WICKERSHAM.

From Julius Lee, Esq., firm of Lee & Walker, the most extensive Music Publishers in the United States, No. 722 Chesnut-st., Philadelphia:

FEBRUARY 8, 1864.

MESSRS. JONES & EVANS—GENTLEMEN: My mother-in-law has been so greatly benefited by your Hoofland's German Bitters that I concluded to try it myself. I find it to be an invaluable tonic, and unhesitatingly recommend it to all who are suffering from dyspepsia. I have had that disease in its most obstinate form—flatulence—for many years, and your Bitters has given me ease when everything else has failed. Yours truly, JULIUS LEE.

HON. JACOB BROOM:

PHILADELPHIA, Oct. 7, 1863.

GENTLEMEN: In reply to your inquiry as to the effect produced by the use of "Hoofland's German Bitters" in my family, I have no hesitation whatever in saying that it has been highly beneficial. In one instance, a case of dyspepsia, of about thirteen years' standing, and which had become very distressing, the use of one bottle gave decided relief, the second effecting a cure, and the third, it seems, has confirmed the cure, for there has been no symptoms of its return for the last six years. In my individual use of it, I find it to be an unequaled tonic, and sincerely recommend its use to the sufferers.

Truly yours, JACOB BROOM, No. 1,707 Spruce-st.

The following well-known reverend gentlemen have acknowledged in writing the great benefits they have received from the use of these Bitters. Such testimony must certainly convince the most sceptical:
